

## Fume Filtration

*Lincat's fume filtration units are the ideal companion to Lynx 400 and Silverlink 600 electric appliances. The three part filter system comprises a washable aluminium mesh for removing large grease particles; a washable foam layer which absorbs fine grease particles; and a replaceable activated charcoal filter. These essential kitchen items reduce grease deposits and remove cooking odours to create a clean and fresh working environment.*

L4

### Features

- Powerful centrifugal fans draw cooking fumes through a three part filtration system
- Cleansed air is expelled at top rear of unit
- Hinged top panel gives easy access for cleaning and filter maintenance
- Overheat protection system cuts power to fans in the event of a cooking appliance fire
- Suitable for use above electric appliances with a maximum depth of 600mm (Note: Not suitable for use with gas appliances.)
