

Fryers – FD Series - Electric

The FD80DR

The FD80DR is a compact powerful double tank fryer ideal for fresh or frozen chips (36kg/h fresh output), it can take a 10" fish fillet or sausage. With independent tanks you can use one tank for your chips whilst keeping stronger flavours eg garlic mushrooms or Plaice fillets in the second tank, or if you have a larger chip fryer use the Roller Grill FD80DR for frying foods with a strong flavour to avoid contaminating the oil of your main fryer. The cold zone of oil below the element helps to prolong the life of your oil.

Features: Safety tap for easy oil drainage; 180'C operating thermostat; additional safety thermostat; safety micro switch to ensure correct positioning of element; heat resistant basket handle.

Weight	15kg
Dimensions (mm)	570 x 480 x 370
