

VETERINARY POSTGRADUATE CERTIFICATE PROGRAM PROSPECTUS 2024-25

In partnership with

WELCOME TO OUR IMPROVE INTERNATIONAL COURSES IN FINLAND

TERVETULOA IMPROVE INTERNATIONALIN KURSSEILLE SUOMESSA

Vetman Ltd is proud to start again the co-operation with Improve International. This world-wide organisation operates now in over 20 countries. Improve International is the largest private provider of postgraduate training for all veterinary practice staff.

The continuing education is in every practitioners' heart. Every year new developments are presented in all walks of veterinary medicine. Continuous Professional Development CPD is a must if you want to keep up with the practical knowledge. With our world-leading speakers we are delivering updated and the same time relevant content to your practice.

Nearly ten years ago we had our first Small Animal Medicine (SAM) and Small Animal Surgery (SAS) modular courses here in Finland. Now it's time to offer these courses again. These modular courses have also evolved in time as they are now offered as blended, meaning that some of the course days are online and some are at our beloved EHYT House. This shows how digitalisation helps learning in our busy practical life. Another newbie is the e-book being given to the course attendees.

Our staff is ready to provide learning support throughout your way with SAM and SAS. It's always nice to see so many dedicated veterinarians into learning the new and refreshing the old. Attending the full structured taught programme in our Post Graduate Programmes and following successful assessment you can gain the General Practitioner Certificate (GPCert) awarded by the International School of Veterinary Postgraduate Studies (ISVPS). You may have already noticed that some of our own Finnish speaking lecturers and veterinarians are honoured to carry GPCert SAM or GPCert SAS after their names in their presentations, publications, business cards and name tags. Soon You can be one of them.

Vetman Oy tarjoaa jälleen Improve Internationalin koulutuksia. Improve International on kansainvälinen organisaatio, joka toimii jo yli 20 maassa. Se on suurin yksityinen jatkokoulutusta koko klinikan henkilöstölle tarjoava yritys toiminta-alueellaan.

Jatkokouluttautuminen on jokaisen praktikon sydäntä lähellä. Joka vuosi löydetään uusia menetelmiä eri käytännön eläinlääkinnän alueilla. Jatkokoulutus on tarpeen, sillä muuten putoat helposti kehityksen kärryiltä pois. Luennoitsijamme ovat maailmalla hyvin tunnustettuja, joten heidän opeillaan saat hyvää päivitystä käytännön praktiikkaan.

Kymmenisen vuotta sitten järjestimme ensimmäiset modulaariset SAM- ja SAS-kurssit täällä Suomessa. Nyt on aika edetä jälleen. Nämä modulaariset kurssit ovat myös hieman muuttuneet, sillä mukaan ovat tulleet verkossa toteutettavat osiot. Tällä tavoin digitaalinen maailma muuttaa myös jatkokoulutusta. Yksi uutuus on myös kurssilaisille jaettavat e-kirjat kurssien osana.

Henkilökuntamme on valmiina auttamaan sekä SAMettä SAS-kurssien opintomatkallasi. On aina mukavaa nähdä innokkaita eläinlääkäreitä oppimassa uutta ja kertaamassa vanhaa. Osallistumalla näille perusteellisille jatko-opintokursseille sekä läpäisemällä International School of Veterinary Postgraduate Studies (ISVPS) arvioinnin saat todistuksen General Practitioner Certificate (GPCert) suorittamisesta. Olet jo varmasti huomannutkin, että kotimaisilla luennoitsijoillammekin on nimensä perässä GPCert joko Small Animal Medicine tai Small Animal Surgery tarkennuksella lisättynä. Tätä titteliä on mukava käyttää esityksissä, julkaisuissa, käyntikorteissa tai vaikkapa vain nimikyltissä. Pian Sinäkin voit olla yksi ylpeistä oppineista!

WHY CHOOSE IMPROVE INTERNATIONAL?

Established

Since 1998 we have been leading the way with veterinary CPD

World-leading

We have world-leading speakers, delivering the academic syllabus whilst ensuring content is relevant to practice

Worldwide

Now operating in over 20 countries worldwide

Originators

We are the originators in the UK of modular CPD for vets, and we are still a company run by vets for vets

Experienced

Our Program Coordinators provide learning support throughout your chosen program

Accredited

By the International School of Veterinary Postgraduate Studies (ISVPS)

State-of-the-art

Practical training centres which enable you to get hands-on with a variety of procedures

OUR LOCATION & PRACTICAL TRAINING CENTER

Our programs take place in Halikko, Finland

We have made changes in our EHYT House to provide excellent learning experiences: our arena is now in the center of lecturing and practical labs. This enables you to get handson with a variety of procedures.

Our state-of-the art training venue has been risk-assessed to ensure you are safe.

Our practical training center in Halikko:

- Provision of full PPE for any delegate attending a practical training session
- Strict limitation of all practical sessions to ensure a safe working environment
- Exceptional facilities and training rooms
- Purpose built 'wet-lab' facilities
- · Wide choice of surgical equipment

OUR LOCATION

EHYT-talo

Maorlantie 1 24800 Halikko

OUR PARTNERS AND QUALIFICATIONS

ISVPS

ISVPS is dedicated to providing the entire veterinary team with high quality, clinically relevant qualifications that are recognised worldwide.

The International School of Veterinary Postgraduate Studies (ISVPS) was established with the principal objective to provide challenging, but attainable, globally recognised qualifications. Its qualifications are designed to meet the needs of busy veterinarians, veterinary nurses, technicians and paraprofessionals, who wish to gain postgraduate qualifications whilst working in practice.

More than 6,700 veterinary professionals around the world are now registered certificate holders. Alongside an international examining board of over 70 examiners, ISVPS ensures the highest integrity of their postgraduate awards through the academic board, made up of ten highly respected veterinary specialists from different disciplines.

For more information on ISVPS, visit www.isvps.org

HAU

A rigorous validation process and the ongoing involvement of HAU in our Postgraduate Certificate (PgC) Programs ensures teaching elements and examination processes meet the highest academic standards.

Founded in 1901, Harper Adams has a long, proud tradition of the highest educational standards, and is widely recognised for the quality of its education. Named University College of the Year six years in a row, HAU was placed within the UK's top 10 higher education institutions, gaining full university status in 2012.

For more information on HAU visit www.harper-adams.ac.uk

WHICH QUALIFICATION IS RIGHT FOR YOU?

International School of Veterinary Postgraduate Studies (ISVPS) and Harper Adams University (HAU) Qualifications

Find out below which one is suitable for you and your professional development plans.

ISVPS General Practitioner Certificate (GPCert)

Suitable for:

- Qualified veterinary surgeons looking to further their knowledge and expertise in a specific discipline
- Busy professionals looking for a flexible route to a qualification
- Veterinary surgeons looking to gain an internationally-recognised postgraduate qualification

Progress your career after the GPCert

Postgraduate Certificate (PgC)

Complete additional assessments and/or modules with Harper Adams University to gain a university-recognised Postgraduate Certificate and 60 transferable academic credits.

Note: in order to progress to the PgC you will need to have completed at least one year in practice prior to starting the GPCert.

THE BENEFITS OF OUR POSTGRADUATE PROGRAMS

Our General Practitioner Certificates (GPCert) and Postgraduate Certificate (PgC) Programs hold many benefits for you, your practice and ultimately your clients' satisfaction. All of our programs are carefully developed with leading veterinary experts who explore the latest content and updates.

FOR YOU:

- Progress your career and achieve academic recognition
- Develop a logical approach to cases and problem solving
- Grow your small animal case-load and revenue stream
- Increase your skills, knowledge and confidence in dealing with more complex cases

FOR YOUR PRACTICE:

- Increase practice revenues
- Improve productivity
- Reduce external referrals and increase practice capabilities
- ☐ Transfer knowledge and skills within practice
- Enhance practice standards

FOR YOUR CLIENTS:

- Accelerate diagnosis
- Improve animal care
- Increase treatment options
- Greater confidence in your value

CHOOSE HOW YOU WANT TO LEARN

FACE TO FACE PROGRAMS

Our popular face to face delivery method combines theory and practical sessions based at our state-of-the-art training center in Halikko.

- Practical wet-labs to enable hands-on experience where applicable
- Opportunity to meet and network with like-minded peers
- Chance to meet, ask questions and learn from expert speakers
- Choice of well-located venues with state-of-theart facilities to enhance your learning experience

ONLINE LEARNING PROGRAMS

Our world-leading online learning postgraduate modular programs are delivered via our unique, engaging and interactive learning

- △ 100% online, allowing you to learn from wherever you are, improving your work-life balance
- Support and guidance from a Module Tutor who is a specialist in the area of study
- Multiple learning processes: Presentations, written notes, interactive quizzes, multiple choice questions and exercises which test your knowledge
- Discussion forum to network with your module tutor and peers worldwide
- Support and guidance from a Program Coordinator

Some of our online learning programs have practical face to face modules or the ability to add additional optional practical attendance modules.

ABOUT OUR WORLD-LEADING ONLINE LEARNING PLATFORM

Using the latest software, we have developed an engaging and innovative learning management platform, providing you with the latest learning methods to ensure you experience an even greater depth of knowledge and insight than other online CPD. Visit explore.improveinternational.com to see the platform in operation and look at a sample lesson.

PROGRAM PROCESS

STUDY YOUR WAY

You can access the online learning platform on a desktop or laptop.

- Modules will be progressively released and include varied interactive content.
- Some programs have practical sessions on particular dates. Attendance dates can be discussed via your dedicated Program Coordinator.
- You can easily track your progress through the program, with badges awarded for different completion stages.

ABOUT OUR PROGRAMS

Our General Practitioner Certificate (GPCert) and Postgraduate Certificate (PgC) modular programs allow you to immerse yourself in your chosen subject area, to truly challenge yourself and to gain the extra knowledge that puts you at the forefront of your field.

Our programs offer you a comprehensive range of structured learning across all key subject areas giving you the ultimate flexibility to access the training that you want whilst working around your busy practice life.

Taught sessions with notes available

Practical sessions where relevant to the subject

Pre and post module online self assessment

Support and guidance through your learning journey

Preparation for end-ofprogram assessments and access to a study skills area with additional learning on topics such as academic writing and reflection

Access to HAU's online learning resources For those progressing to the PgC

Independent program of study, including online components

Online learning system, forum access and notes to accompany sessions (available for downloading)

SMALL ANIMAL MEDICINE

ISVPS General Practitioner Certificate (GPCert)
Postgraduate Certificate (PgC) awarded
by Harper Adams University

The most comprehensive modular medicine program covering all of the major body systems.

- ▼ FREE Receive a copy of our e-book Improve International Manual of Clinical Small Animal Internal Medicine volume 1 and volume 2
- ✓ Access to world renowned speakers
- Opportunity to meet peers and network
- ✓ Six modules with practical components to apply theory hands-on
- A dedicated Program Tutor who will support every individual during their PgC program to ensure a rewarding and successful learning journey
- ✓ Combined face to face with online learning

DERMATOLOGY

ISVPS General Practitioner Certificate (GPCert)
Postgraduate Certificate (PgC) awarded
by Harper Adams University

Skin disorders are fairly common clinical presentations in small animal practices – but that doesn't mean their diagnosis and treatment are always easy to figure out. Improve International invites you to embark on an immersive and interactive learning experience. Through online lectures and different case discussions, you will learn how to confidently approach the dog, cat and exotic patient presenting with the various manifestations of skin disease in a logical and scientific manner.

- Support and guidance from a Module Tutor who is recognised in their subject field. The specialist in the subject area will provide online support during each module and will be available to answer all your questions
- Leading online learning experience; presentations, written notes, diagrams, interactive quizzes and exercises test your knowledge as you work
- Discussion forum; for conversation, debate and sharing cases with your peers and Module Tutors
- A dedicated Program Coordinator will support every individual during their program to ensure a rewarding and successful learning journey

EMERGENCY MEDICINE AND SURGERY

ISVPS General Practitioner Certificate (GPCert)
Postgraduate Certificate (PgC) awarded
by Harper Adams University

Emergencies are stressful situations that often fill veterinary surgeons with dread. This feeling results from the fear of the unknown and the realisation that one decision can make the difference between life and death. This program has been transformed to provide you with the knowledge and confidence you need to deal with these situations and think like an emergency vet.

- Support and guidance from a Module Tutor who is recognised in their subject field. The specialist in the subject area will provide online support during each module and will be available to answer all your questions

OPHTHALMOLOGY

ISVPS General Practitioner Certificate (GPCert) Postgraduate Certificate (PgC) awarded by Harper Adams University

To provide the best ophthalmic care to your patients, you must be confident in performing a comprehensive ocular examination and interpreting your clinical findings, even the ones that often go unnoticed. The Small Animal Ophthalmology Postgraduate training program will help you uncover all the secrets behind your patients' eyes by providing you with comprehensive knowledge authored by specialists in a practical and imagebased approach.

- Support and guidance from a Module Tutor who is recognised in their subject field. The specialist in the subject area will provide online support during each module and will be available to answer all your questions
