

Ultra Scale™ Dental Disinfectant Solution

Ultra Scale™ Dental Disinfectant Solution is a scaling concentrate to inhibit bacteria that can cause plaque and cavities. This scaling solution is an important addition to long-term dental health for companion animals, which are especially at risk for periodontal diseases. Ultra Scale™ may be used in any dental unit and will not block or plug water lines. Safe for cats, dogs and horses.

Features:

Lubricant

- Protects enamel when scaling during dental cleanings
- Helps cut and section teeth efficiently during procedures

Disinfect & Clean

- Helps remove biofilm from patient and dental equipment
- Inhibits bacteria that cause plaque and cavities
- Helps eliminate odors at the source with a mint scent and flavor
- Foams in the mouth of the patient when in use to show it is working

Protect Equipment

- Protects and lubricates tips and burs to last longer and helps prevent scaler damage
- Chlorhexidine-free
- Will not block or plug water lines in dental units
- Helps extend the life of dental units, tools and equipment
