# Sustainability

## Pet Parents + Makondo Pets CLIMATE ACTIONS HEROES

### RAINFOREST SAVERS

With every purchase on our website, you're saving five trees in the rainforest along with its diverse inhabitants. Your support actively contributes to capturing CO<sub>2</sub> from the atmosphere, making a positive impact on climate change.

### PLASTIC-FREE PACKAGING

We provide eco-friendly alternatives to single-use plastics, aiding in the prevention of plastics from polluting rivers and oceans, ultimately saving marine animals. Only about 9% of plastic bottles are recycled, and the rest end up polluting the planet.

### RE-CO-RE

**RE**Use-**CO**mpost-**RE**cycle: When you purchase our products in compostable and recyclable packaging materials, you actively reduce planetary contamination. Reusing the box further extends its lifespan.
