

# F250 2017+ LED TAG LIGHT INSTALLATION GUIDE

## STEP 1

Be sure that there is no power going to you Tag lights.

Locate tag bulb socket by looking under your bumper.

## STEP 2

Twist the socket counterclockwise and pull away from the truck.

Use a small flathead screwdriver to release this bulb from its socket. Once the bulb is released carefully remove the bulb by pulling away from the base of the bulb.

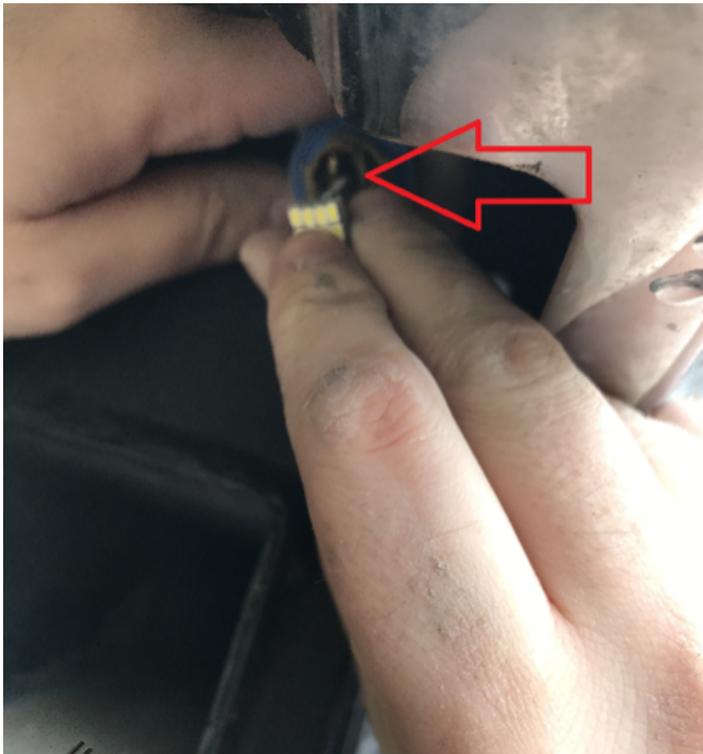

*\*Make sure this bulb is not hot when removing it\**

## STEP 3

Use a small flathead screwdriver to release this bulb from its socket. Once the bulb is released carefully remove the bulb by pulling away from the base of the bulb.

*\*Make sure this bulb is not hot when removing it\**

## STEP 4

Insert your F150LEDs.com tag light bulb.

Test your bulb to ensure that it is working, if not rotate your bulb 180 degrees.

## STEP 5

Reinsert your tag light socket back into your housing.

**Stand out. Shine brighter.**
