STRIVE

BLUETOOTH SPORT EARPHONES

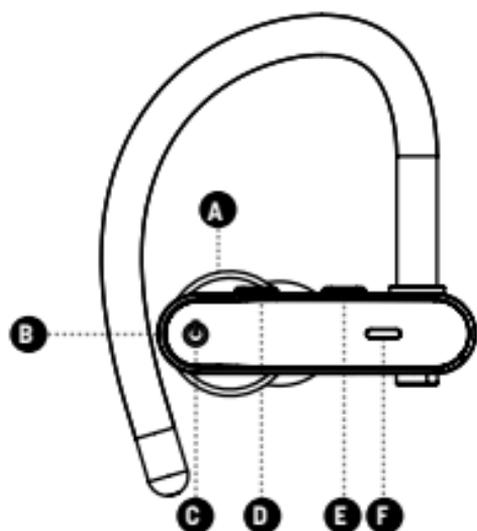

Get in the zone and stay there with durable, precision-audio headphones. Designed for hard-chargers who love music, Strive Bluetooth Sport Earphones produce outstanding audio for up to 7 hours on a single charge and tune out ambient sound with passive noise reduction technology. During a workout in the driving rain, they won't skip a beat thanks to a water resistance rating of IPX7. Bluetooth 4.1 connects to paired devices within a 30-foot radius, USB makes charging a no-brainer, and there's a microphone for hands-free calling.

Before using your earphones, please read this manual and keep it for future reference.

GETTING STARTED

POWERING ON

Press and hold the power (multi-function) button for 3 seconds until the indicator light flashes red and blue.

YOUR EARPHONES

- A. Microphone
- B. USB Port
- C. Power / Multi-Function Button
- D. Volume Down
- E. Volume Up
- F. Indicator Light

Your earphones need to be fully charged prior to using it for the first time.

FITTING AND WEARING

Your Strive Earphones come with 3 different size ear-tips allowing you to customize the fit to your ear.

Select the ear-tip that fits your ear the best, then gently push the ear-bud into your ear canal and adjust the hook until you find the fit that's right for you.

Small Ear-Buds

Medium Ear-Buds

Large Ear-Buds

PAIRING

With the earphones OFF, press and hold the power (Multi-function) button for 5 seconds to enter pairing mode.

Open the Bluetooth function on your device, select the device name "Strive" to connect the earphones.

CHARGING

When the battery is low, the indicator light will flash red and you will hear a voice prompt alerting you that the battery is low.

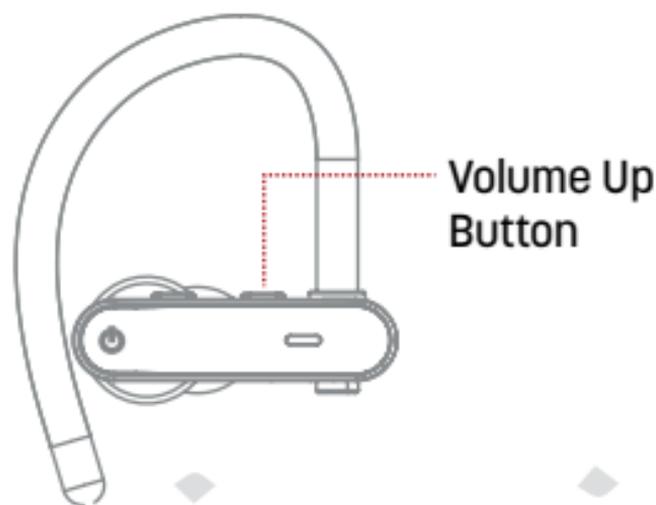

When this happens you should turn off your earphones and plug them in using the included micro USB to to a USB port or charging outlet to recharge.

USB Cable

FACTORY RESET

FREQUENTLY ASKED QUESTIONS

I've connected my device, but I'm not hearing sound.

Make certain that the volume is up on both the earphones and your device. Some smart-phones require you to setup the earphones as an audio output device before sound is transmitted. Please see the pairing instructions on your smart-phone for details. If you are using a music player or other Bluetooth device, please make sure it supports an A2DP stereo music profile.

My connection is not stable, it cuts in and out.

Check for nearby radio or wifi interference, also check to see that there are no objects between your earphones and Bluetooth device that would impede the signal.

Can I use the earphones while it's charging?

No, the earphones can not be used while charging.

The earphones are not responding, no matter what.

Please try the factory reset option on your earphones.

The sound is not very clear or the caller can not hear me clearly on a phone call.

Please check the volume on your earphones and smart phone. Check to see if objects are between your earphones and smart-phone that would impede the signal. Try staying closer to your smart phone.
