

Agribon® row covers are made of spun bound polypropylene and are available in weights of .45 oz. per square yard to 2.0 oz. per square yard. The fabric is light enough to lay directly on most plants or vegetables.

Agribon® provides proper protection against freezing temperatures and those pesky insects.

Non-woven row covers usually last about 1 to 2 years.

AG15

LIGHT WEIGHT INSECT PROTECTION (.45 oz./ per sq. vd.)

- Won't retain unnecessary heat
- Protections against thrip, aphids, beetles, and most insects
- Ideal for organic growing conditions
