

T-Disc Brewer

Offers espresso coffee drink consumers the type of coffee that they love in T-Disc espresso, latte, and cappuccino drinks. Some tea drinkers claim the tea is not too strong. Drink sizes are programmed into the barcode on T-Discs, ensuring optimal brewing time and volume every time. Can brew authentic espresso while K-Cup brewers cannot.

K-Cup Brewer

Offers a greater variety of coffee options for daily coffee drinkers. Offers the greatest variety of flavored coffees often favored by single cup coffee drinkers. Some tea drinkers claim the tea is not too weak. Cheaper than T-Disc coffee on a cup-by-cup comparison.
