

SIZE & FIT

RING SIZE

To determine your Haute Victoire ring size, you can use a ring you already own and place it on the ring size chart below.

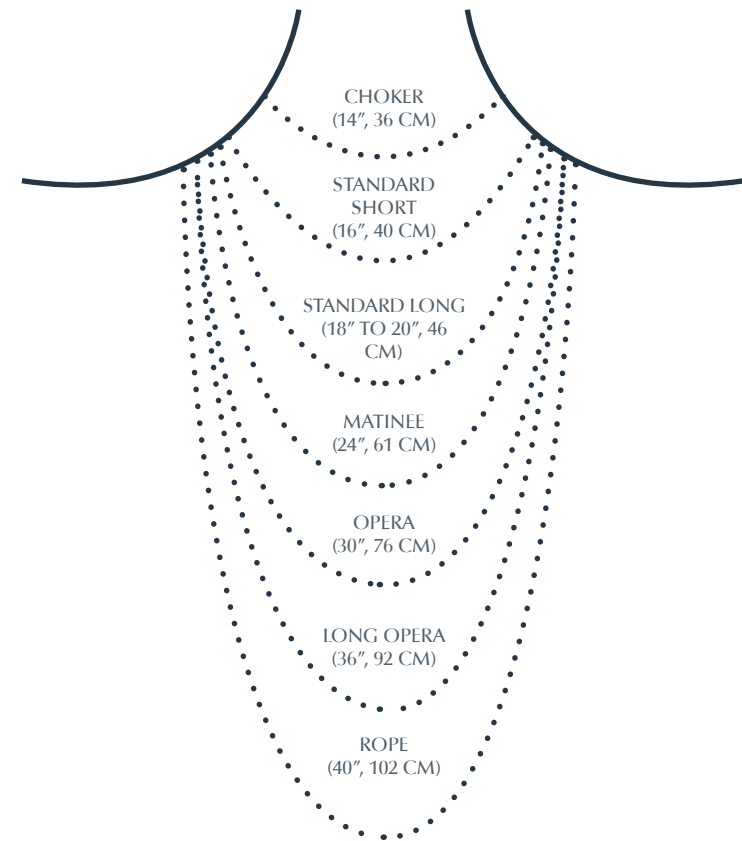

The inner edge of your ring should align with the circle size. If you are between sizes, choose the larger size. Please make sure you print the ring chart at 100%, or full scale, not scale to fit. To ensure that you are using the proper scale use a ruler to respectively measure the samples below: 2" or 20mm.

We offer complimentary resizing for Haute Victoire's one-of-a-kind and Vintage rings. Most rings can be resized; however, there are limitations in resizing existing rings depending on the style of the ring. Resizing is offered on a case by case basis.

NECKLACE SIZE

Please use the necklace size illustration below to give you an idea about the length of Haute Victoire's necklaces.

BRACELET SIZE

To determine your size please measure your wrist by using a flexible measuring tape in inches where you want to place your bracelet.

Haute Victoire One-of-a-kind and Vintage cuffs and bracelets are made for an average size 7" wrist and some can be resized on a case by case basis.
