

STANDESK

ELECTRIC SIT-STAND DESK

Converting the STANDESK to suit Apple iMac

1. If you have an Apple iMac monitor, you will need to use a [VESA Mount Adapter Kit for iMac](#) to connect the mounting plate to the Apple iMac monitor.
2. These adapters are commonly found at either Apple stores or your local electronics store or can be purchased from us at Office Portfolio.
3. For assembly, just follow the link below which helps describes the process:
