1	9523	Grab & Go Top Plate
1	9524	Grab & Go Center Handle
2	9525	Grab & Go Side Plates
1	9804	Instruction Sheet

About the Grab & Go™ Glue Caddy:

For years, I have been tipping over bottles of CA and epoxy when I took things to the field. I got tired of it, and looked into a lot of the model airplane glue caddies, but didn't like what I found. So, I went and designed my own, with the help of renown designer Dave Myers. No longer would I forget a bottle of CA or epoxy, or have it tip over during transport. The *Grab & Go* has a handy handle that makes it easy to carry, and it works so well, I use it to keep my bottles from falling over on my workbench as well.

The holes are sized for a small 5 Minute Epoxy set, and a bottle of Thick CA, Thin CA, CA Accelerator, and CA Debonder. You can mix and match as you see fit.

Before You Start:

Thank you for purchasing this North Coast Rocketry® product. We hope you have an enjoyable time constructing and using this tool. Please read all of these instructions to become familiar with them before starting construction.

The following materials are necessary for construction:
 #220, #320 and #400 sandpaper, CA Adhesive or Wood Glue

Check the kit for completeness, using the parts list and reference photograph. If parts are missing or damaged, or if for any reason you are dissatisfied with this product, please let us know at www.NorthCoastRocketry.com. We will gladly replace any item found to be defective. Our goal is for you to be satisfied with your purchase, and to have fun!

- This kit is recommended for adults(18 and older) only.
- North Coast Rocketry certifies that it has exercised reasonable care in the design and manufacture of its products. However, as we cannot control the use of our products once sold, we cannot assume any responsibility or liability for product usage.
- North Coast rocketry shall not be held responsible for personal injury or property damage resulting from the use of our product. The buyer assumes all risks and liabilities arising from the use of our product and uses our product on these conditions.
- North Coast Rocketry makes no warranty regarding our products, except for defects in materials or workmanship for a period of one year after purchase.
- If any of these terms are unacceptable, please return the item to the point of purchase.

Assembling the Grab & Go

Fine sand all the wood parts with #220, #320 and #400 sandpaper.

Test fit the center handle through the base plate. Sand as necessary to ensure a good fit. Using CA or wood glue, bond the base plate in place.

Test fit the top plate through the center handle. Sand as necessary to ensure a good fit. Using CA or wood glue, bond the top plate in place.

Test fit one side plate on to the tabs of the base and top plates. Sand as necessary to ensure a good fit. Using CA or wood glue, bond the plate on to the assembly. Repeat for the other side.

Fillet all joints for additional strength.

Add decals as desired.
