CHERRY PEPPER PEEL

A weekly smoothing treatment with a slight, sweet tingle

Get your glow back with this active herbal exfoliant that's loaded with hydrating ingredients to balance the skin while providing a deep yet gentle pore cleanse. This peel smooths and re-texturizes with capsaicin, vitamin C and honey.

SKIN TYPE/CONCERN

- Dry/Dehydrated
- Normal
- Combination
- Dull
- Aging
- Preventative Aging
- Sporadic Breakouts
- Frequent Breakouts
- Severe Breakouts
- Stressed skin
- Large pores

RESULTS

- At home mini-peel
- Dissolves surface dead skin cells that dull the complexion
- Stimulates the skin resulting in a rosy appearance
- Stimulates blood circulation resulting in deeper product penetration
- Leaves skin appearing revitalized, fresh and radiant
- Gives skin a boost of vitamin

HOW TO USE

Massage a thin layer of product onto cleansed face and neck. Skin may feel tingly. Leave on for 1-10 minutes depending on sensitivity. In the case of excessive stinging or irritation, remove product immediately. Rinse and follow with your favorite Sorella Apothecary toner. Use weekly.

WHAT'S INSIDE?	WHAT DOES IT DO?
Cherry Pepper Extract	Rejuvenate and invigorate with a vitamin-packed punch that increases circulation.
Vitamin C (Ascorbic Acid)	This form of vitamin C is a total powerhouse: It helps to minimize the appearance of fine lines and wrinkles while promoting even skin tone. In this form, it's ideal for use in masks and exfoliants so your skin gulps up just enough before removing it.
Superfruit Blend	A combination of four omega-rich fruits that exfoliate and renew skin without over-drying, keeping it fresh and free of cell damage.
Bioflavonoids	Found in the membranes or peels of citrus fruits, these boast antioxidant properties that enrich, nourish and moisturize the skin while neutralizing free-radicals.
Honey	Rich in antioxidants, natural anti-bacterial power and moisture-restoration properties, this is the bee's knees!
Ginger Root Oil	A powerful antiseptic, with antioxidants and anti-inflammatory properties.
