

DAILY GREENS

An oil-free moisturizer that gets the job done without weighing you down

This ultra-light daily moisturizer hydrates without clogging pores and absorbs excess oil. Skin gets a daily dose of vitamins A, B, C, E and K, plus hydration and lightening from effective extracts and face-friendly anti-oxidants. Healed breakouts and an even skin tone result in a healthy and radiant glow.

SKIN TYPE/CONCERN

- Combination
- Oily
- Sensitive/Sensitized
- Rosacea
- Dark Spots
- Preventative Aging
- Clogged Pores
- Sporadic Breakouts
- Frequent Breakouts
- Severe Breakouts

RESULTS

- Maintains moisture levels while reducing excess sebum
- Eliminates excess oil while adding essential nutrients, leaving matte, shine free finish
- Soothes irritates and inflamed acne lesions
- Leaves skin appearing more even

HOW TO USE

Apply liberally to cleansed and toned face and neck for repair and balance.

WHAT'S INSIDE?	WHAT DOES IT DO?
Niacinamide	Also known as vitamin B3, this powerful ingredient reduces inflammation and restores the skin's natural barrier to harmful pollutants, making skin look and feel refreshed and revived.
Kale	This supergreen is a natural detoxifier, packed with omegas to boost skin's hydration and combat sun damage.
Cucumber	Not just for spa selfies, cucumber rejuvenates, firms and soothes the skin with essential nutrients while banishing puffiness.
Vitamin C (BV-OSC)	This type of vitamin C penetrates deeper into the skin and stays stable longer, ensuring you get a full dose of antioxidants to help minimize the appearance of fine lines and wrinkles while promoting even skin tone.
Gooseberry & Licorice Root Extract	Skin-soothing anti-inflammatory ingredients even skin tone and heal post-breakout pigmentation spots.
Evermat	Reduces the appearance of pores and controls oil – leaving skin matte, not flat.
Phytic Acid	This skin lightener is naturally derived from plant seeds and works by blocking iron and copper during the formation of melanin.
Spirulina	No surprise that the add-on to your green juice is also in your skincare. Increased formation of collagen means skin looks stronger, tighter, firmer, smoother. Just like your bum in those expensive yoga pants.
Green tea	Get zen with a potent antioxidant that soothes skin and boasts anti-inflammatory and antibacterial powers.
