

# EXFOLIATE & HEAL CHEMICAL PEEL

*A back-to-basics resurfacing treatment that rejuvenates complexions*

*Chemical exfoliation with intense hydration to promote clear, smooth skin. Recommended in a series of 3-6 spaced 2-3 weeks apart depending on your desired results. Consult with your esthetician.*

## SKIN TYPE/CONCERN

- Dry/Dehydrated
- Normal
- Combination
- Oily
- Rosacea
- Dull
- Dark Spots
- Aging
- Preventative Aging
- Sporadic Breakouts
- Frequent Breakouts

## RESULTS

- Exfoliate and promotes healthy cell renewal
- Skin appears radiant and more youthful
- Wrinkle depth and fine lines appear reduced
- Complexion is more even
- Texture is soft and noticeably smoother or improves skin texture and tone
- Lightens hyperpigmentation
- Diminishes acne lesions

## HOW TO USE

Apply a quarter-sized amount onto cotton round, do one overlapping pass onto the face while avoiding the eye area. Estheticians can apply 1-4 layers on the face and 1-2 layers on the neck/chest, waiting 2 minutes in between each layer. Use fan and sip water to avoid discomfort

WHAT'S INSIDE?	WHAT DOES IT DO?
Lactic Acid 14%	Cleopatra's legendary beauty secret was said to be milk baths – and we can see why. AHA naturally found in milk improves skin's texture and tone while keeping it moisturized.
Salicylic Acid 14%	The classic ingredient for clear skin. A dose helps to unclog pores, remove dead skin cells, exfoliate and combat acne-causing bacteria.
Kojic Acid 3%	This exfoliant gently lightens skin while removing dead skin cells, oil and dirt.
Hydroquinone 2%	Effectively fade and lighten pigmented skin cells.
Citric Acid	AHA naturally found in citrus fruits purifies and minimizes the appearance of pores.
Aloe	Ancient Egyptians called aloe the “plant of immortality” and we know why. Soothing, healing and hydrating with anti-inflammatory properties, it does a little bit of everything.
