WHAT'S INSIDE?	WHAT DOES IT DO?
Poppy Seed	A gentle, natural exfoliant that renews the skin without over-the-top irritation.
Sweet Almond Oil	Go nuts with this stuff, because high levels of essential fatty acids repair skin's barriers and provide skin-quenching benefits.
Kaolin Clay	Gently draws out impurities without stripping the skin.
Lactic Acid	Cleopatra's legendary beauty secret was said to be milk baths – and we can see why. AHA naturally found in milk improves skin's texture and tone while keeping it moisturized.
Bearberry Extract	This natural skin lightener balances and brightens the skin, while providing additional antioxidants.
Sage Leaf Extract	No need to consult a sage. If you seek balance and hydration, this is the answer.
Caffeine	Your skin sips caffeine for increased circulation and increased oxygen levels, which in turn eliminate bacteria.
Ecobeads	Biodegradable beads that gently and effectively exfoliate the skin, leaving it renewed and hydrated without polluting our oceans with harmful plastics!
