

# HANWAY TECHNOLOGY

**Model:** HWN90

**Product:** Truck Nitrogen Generator

**Description:** In principle, tyres can be inflated with both air and concentrated nitrogen. Tyres with nitrogen are said to have several advantages over simple air inflation. Last but not least, the inflation gas has a positive side effect: the tyre pressure should remain constant for a longer period of time. With the help of nitrogen generators, you can obtain an unlimited amount of N<sub>2</sub> for the tyres of any vehicle directly on site: whether motorcycles, cars, trucks, buses or commercial vehicles. The HWN90 is a mobile unit with a storage tank, all you need is a power point to operate the machine.

Technical Information	
Temperature range	-20 - 70°C
Power source	AC110V/220V, 50-60Hz
Power	120W
Inlet pressure	10 - 15bar, 1 - 1.5 Mpa
Nitrogen outlet pressure	10 - 12bar, 1 - 1.2 Mpa
Nitrogen purity	95% - 99.5%
Internal storage tank	160L
Packaging dimensions 1/2	900*1600*570 mm
Packaging weight 1/2	200 kg
Packaging dimensions 2/2	45*1600*565 mm
Packaging weight 2/2	80 kg
