

# HANWAY TECHNOLOGY

**Model:** HWN80

**Product:** Passenger Nitrogen Generator

**Description:** In principle, tyres can be inflated with both air and concentrated nitrogen. Tyres with nitrogen are said to have several advantages over simple air inflation. Last but not least, the inflation gas has a positive side effect: the tyre pressure should remain constant for a longer period of time. With the help of nitrogen generators, you can obtain an unlimited amount of N<sub>2</sub> for the tyres of any vehicle directly on site: whether motorcycles or passenger vehicles. The HWN80 is a mobile unit, all you need is a power point to operate the machine.

### Technical Information

Temperature range	-20 - 70°C
Power source	AC110V/220V, 50-60Hz
Power	30W
Inlet pressure	6-10bar, 0.6 - 1 Mpa
Nitrogen outlet pressure	6-10bar, 0.6 - 0.8 Mpa
Nitrogen purity	95% - 99.5%
Internal storage tank	70L
