WINNTEC

Y3450E

50ton bottle jack (Industrial/certified)

Model: Y3450E

Product: 50 Ton industrial bottle jack

Description: This powerful, heavy-duty 50 Ton Hydraulic Bottle Jack with high quality glide-action pressure pump is designed for hard-hitting commercial use, making large loads easy to lift. The lightweight jack is ideal for lifting farm vehicles, heavy-duty machinery, industrial construction equipment and more.

Features:	Benefits:
50-Ton Lifting Capacity	Capable of lifting and supporting extremely heavy loads up to 50 tons. Ideal for lifting large industrial equipment, machinery, and heavy vehicles.
Light and compact construction	Small and easy to fit in the back of your vehicle as the jack does not take up much space.
Reliable overload protections	Stable construction with quality seals also includes overload protection.
Strong wide cast iron base	Stable enough to handle the load.
Hydraulic	No air required to operate
Ease of use	Long pumping handle that makes pumping more comfortable.
Premium European design	Recognizing the demand for high performance work shop products, Winntec sourced the best quality components and developed a range of premium work shop equipment which offers excellent value for money. Choosing Winntec means choosing certainty in terms of quality, functionality and after sales service. It's the experience which makes the difference !
Hydraulic Operation	Utilizes hydraulic power for efficient and controlled lifting. Provides a smooth and reliable lifting process, allowing for precise adjustments.
Wide Base	Provides stability during lifting operations. Ensures a secure foundation, reducing the risk of tipping.
Durable Steel Construction	Heavy-duty steel construction for durability and strength. Withstands the rigors of industrial use and ensures a long lifespan.
Large Diameter Piston	Accommodates heavy loads with ease. Provides efficient lifting capacity for the most demanding industrial applications
Built-In Bypass System:	Prevents over-pumping, protecting the hydraulic system. Enhances safety and prolongs the life of the hydraulic components.
Pressure Relief Valve	Automatically releases excess pressure. Prevents overloading and ensures safe operation

Carrying Handle	Facilitates easy transport and positioning. Increases portability and user convenience
Compact Design	Takes up minimal space when not in use. Easy to store and transport between work locations.
Integrated Oil Bypass System	Allows oil to freely flow back to the reservoir. Enhances the longevity and performance of the hydraulic system.
Large Diameter Base	Provides additional stability. Distributes the load over a larger area, reducing the risk of sinking on softer surfaces.
Versatile Applications	Suitable for a variety of heavy lifting tasks in industrial environments. Suitable for a variety of heavy lifting tasks in industrial environments.
Training available	Technicians can be professionally trained to use the equipment and get the maximum benefit from it.
1 year warranty	The machine will be repaired if there are any factory faults and can be replaced if required.
Spares available	Should you have a breakdown you will not have to wait for your equipment to be repaired. If there is anything we don't have, we fly it in directly from the Suppliers.
Operational videos	Technicians can learn how to operate the equipment by watching a video, which is easier and more simple than written instructions.

Technical information	
Capacity	50ton
Min height	265mm
Max height	425mm
Net weight	25kg
