TOOLS NEEDED

This installation is overall very basic so only simple tools are needed and the installation can be completed in your driveway un under 15 min.

7MM SOCKET
Used to remove the
factory bumper reflectors

8MM SOCKET
Used to remove the
factory Tail Lights.

PLIERS
Used to crimp t-taps. Not needed
if with the P&P Adapters

OPTIONAL PLUG & PLAY ADAPTERS:

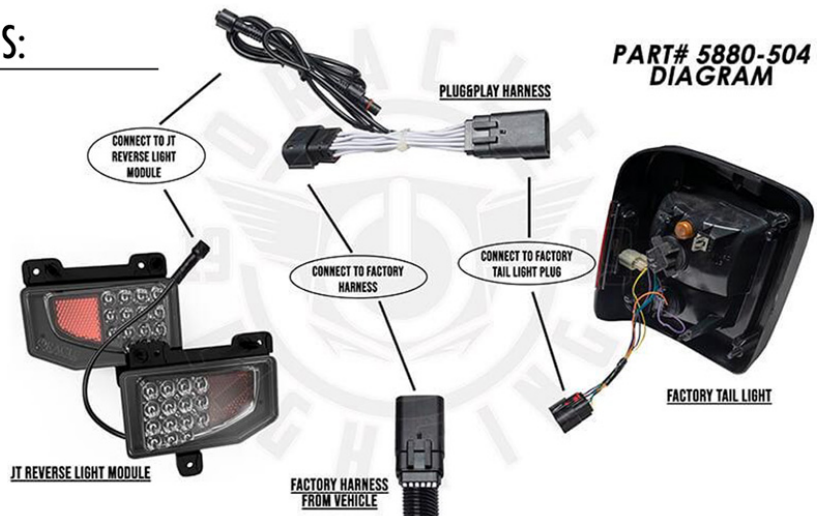

(SOLD SEPARATELY)

Don't like T-Taps? Install your ORACLE Lighting Rear Bumper LED Reverse Lights for the Jeep Gladiator JT with this easy to use Plug & Play Wiring Adapter.

Just simply plug in the harness between the factory tail light plug and the factory tail light.

All connections are sealed and waterproof for the most secure and durable connection.
