SMART WIFI LED CONTROLLER
LED LIGHTING CONTROL VIA YOUR SMART PHONE & TABLETS!

The new ORACLE Smart WiFi LED Controller offers more versatility with increased functionality. Through the built in WiFi function, you can control various types of LED lighting products wirelessly with your mobile device or tablet. With a smaller overall dimension, the controller module can now be installed in areas where space is limited. Now with over double the amount of functions as previous versions, and new DIY programs the new ORACLE Smart WiFi LED Controller boasts a wider and more reliable WiFi signal. The software application is free to download from the Apple App store or the Google Play Store.
