DeLight, made in LA, inspired by Paris

- DeLight Patisserie creates the custom message shortbread cookies with a buttery flavor and melt-in-your-mouth texture. You can think of them as edible cookie cards that can be personalized with a name, a date, or a logo for any special occasion.
- After moving to Los Angeles, Celine knew that she wanted to bring a little bit of the Parisian sweet life to her new home. With no connections, no knowledge of the U.S. food market, and only conversational English, she set out to bake up a business that would spread love with every bite and make for a truly special gifting experience.
