Order/Payment deadline: Friday, April 9th by 12pm

Pick Up: TBD **Friday, April 16th or 23rd 12 pm - 7 pm** (if necessary Sat. 10-Noon)

Chilean Reds - \$70.99

Barbera - Vivid hue of red which characterizes full fruity flavors. This wine has a minimal amount of tannins which means it will not be astringent. Taste perception can vary from fresh cherry to a plummy boldness. If aged, this wine can have a touch of spiciness.

Cabernet Franc - Pronounced character, soft but distinct tannins and deep color, ages well. Usually blended with other grapes to produce a light to medium bodied wine. Fruitier than Cabernet Sauvignon.

Cabernet Sauvignon - The most widely planted grape in the world. The red grape produces a lush, fruity core of ripe blackberry, juicy red and black currant and notes of mocha and a savory hint of black pepper. Medium-full body dry red wine; this wine will taste its best when it has been oaked.

Carmenere - A deep colored, full-bodied, dry, and fruity red wine. Aromas of spice, jam, raspberry, and dark chocolate with flavors of tobacco and fig.

Malbec - Makes a dry spicy wine. Powerful character with blackberry, plum, red pepper, sweet cherry, spice licorice, and deep bittersweet notes, almost like unsweetened chocolate or espresso.

Merlot - In recent years, Merlot has become the star varietal of the California wine world. Merlot offers up fruity aromas of currant, black cherry and plum, with a lower natural acidity than most red wine grapes, resulting in a finished wine with a more smooth and velvety taste. Medium-bodied red wine that will benefit with a bit of oak.

Pinot Noir: aromas resembling black currant. Sweet fruitiness and low tannins. Aging with French oak brings out a spicy and smoky flavor. Its flavors are reminiscent of sweet red berries, plums, cherries and occasionally have a notable earthy or woody flavor-depending on growing conditions (terroir).

Rapel Casa Rosa - A blend of Merlot, Cabernet Sauvignon and Syrah. Flavors of black current and cherry, the Merlot smoothes the large flavors of Cab and Syrah. A full bodied wine with intense flavors that linger on the palate.

Sangiovese - ruby red in color has a luscious red cherry character with hints of violets. Exquisite wine that is full of flavor, easy drinking and goes with pizza to steak.

Syrah (Shiraz) - Rich with deep violet color and tannins. Syrah is a full-bodied intense wine which is known for its spicy and peppery notes. This dry red is big, bold with high alcohol. Do not skip the oak on this one!

Petit Syrah - Its blackberry and spice aromas make a robust wine with a dark inky color. Makes a well-balanced wine and can be described with scented flavors of carnations and violets

Zinfandel - this wine is robust and hearty wine. It is smooth and easy drinking with a light spiciness and smoky flavors. This grape generally yields a higher alcohol than most reds. It is a beautiful balance between its smoothness and alcohol content.

Chilean Whites - \$69.99

Chardonnay - Rich and smooth is the term and explanation for its continuing popularity. Chardonnay assumes a wide range of finished aromas – apples, lemons, peaches, or tropical fruits. Despite its many variances in style, Chardonnay's taste is unmistakable due to its almost perfect sugar/acid balance, its full body, and easy smoothness. Use some American oak to develop hints of vanilla flavors.

Gewurztraminer - Delicious white wine with a unique taste. Slight spicy notes makes this medium bodied wine a great wine to pair with seafood or spicy foods. It's perfectly balanced – not too dry or sweet.

Muscatel Alejandria (*Moscato*) - has a sweet, floral aroma with a unique Moscato taste. This medium-bodied white wine is fast becoming one of the bestselling wines in the U.S.

Pinot Grigio — A soft, gently perfumed white with hints of honey nut to spicy musk. One of the most popular whites.

Riesling - characters of juicy peach, ripe pear, melon, citrus with subtle mineral notes. Rieslings have a high level of acidity but a slight hint of residual sugar provides a nice balance to this easy drinking white wine.

Sauvignon Blanc - has regained popularity in recent years as a dry wine. Grassy/ vegetable like aroma, hence the tendencies of many winemakers to utilize as a blending partner. A grape with naturally high acidity, Sauvignon Blanc is almost always tangy and tart.

Viognier - Intense fruitiness but shows a dry and aromatic finish.
