

Formulation Features

- Helps sustain normal adrenal function
- Promotes physical vitality and mental alertness
- Supports antioxidant defenses and alleviates occasional fatigue
- Contributes to a balanced cortisol-to-aldosterone ratio

Adrenal Support

Adrenal Px L-BP capsules contain a highly concentrated form of Glycyrrhiza (licorice), which supports the maintenance of healthy cortisol and aldosterone levels and has been used traditionally for promoting healthy adrenals and a healthy liver. These capsules also consist of a particularly potent blend of adaptogenic herbal extracts such as Holy Basil and Rhodiola, which not only support adrenal function, but can also produce a calming effect on the nervous system.

Adrenal Px L-BP was specifically designed to reduce occasional fatigue, augment stress resistance, and help preserve healthy cortisol levels. In addition, this adaptogenic formula also helps to sustain healthy brain function (e.g., mental performance), and provides antioxidant defenses against harmful free radicals.

Caution: The ingredients contained within Adrenal Px L-BP can elevate blood pressure and heart rate, thus these products are not intended to be taken by those with cardiovascular disease. Given the potency of the ingredients, patients taking Adrenal Px L-BP, should have their heart rate and blood pressure monitored regularly.

Supplement Facts

Serving Size: 2 capsules		Servings Per Container: 37	
	Amount Per Serving		% Daily Value
