

Kidz Digest^{*} Chewable

Improving digestion for our children!*

Sometimes making healthy food choices for children is easier said than done. Kidz Digest Chewable was created as a tasty, convenient way to encourage more complete digestion and absorption of nutrients.* Supplementing with digestive enzymes assists with the digestion of food, allowing the body to maintain a healthy digestive system.* Once food is broken down into simple nutrients, the body's cells and tissues can absorb the resources they need for energy, growth, and repair. Kidz Digest supports healthy digestion to assist in maintaining intestinal immune system support and reduce the symptoms of occasional indigestion, gas, and bloating.*

- **Enzyme Blends.** Three enzyme blends work together to encourage a more complete digestion: a polysaccharolytic blend to assist with the digestion of sugars and starches, a protease blend which includes DPP-IV to assist with the digestion of proteins, and a lipase blend with 3,000 FIP of activity to assist with the digestion of fats.*
- **Chewable Product.** Kidz Digest in chewable form is easy to administer. Two berry-flavored tablets with each meal and/or snack will promote healthy digestion and elimination.* Transformation takes great care to use only non allergen ingredients.
- **Safe and Effective.** Transformation™ enzyme products have been clinically used for over 20 years to safely and effectively assist with the reduction of food sensitivities that may cause occasional gas, bloating, diarrhea, cramping, heartburn, and constipation.*

Health Benefits: Transformation's Kidz Digest is a gentle formula of effective, GI stable digestive enzymes designed to promote optimal digestion of nutrients.*
