In this circumstance, the Referee shall notify the offending crew that it has been disqualified and the said crew must stop paddling and not complete the course. Failure to comply with the Referee's instructions could result in further disciplinary action, including disqualification for the remainder of the competition.
- (d) If during a race a canoe, while on its own water, is interfered with by an outside canoe or boat, a Referee shall stop the race and order it paddled over, if in the referee's opinion such interference will affect its chances of winning a medal or advancing to medal competition.
- (e) Any competitor refusing to obey the directions of a Referee and/or Starter or to abide by their directions shall be disqualified by a Referee and/or Starter.

4.04 START PROCEDURE

- (a) The objective is to give all competitors a dead even start on the defined start line.
- (b) Competitors shall be at the starting area in time to allow satisfactory preparation for the start.
- (c) The start procedure shall commence without reference to any absentees. Crews not in their starting positions on completion of the published time interval will not be permitted in the race by the Referee unless instructed otherwise by the Chief Official.
- (d) The Starter shall communicate the countdown exactly as follows:
 - "5 minutes to start"
 - "3 minutes to start"
 - "1 minute to start"
- (e) The Referee(s) will space crews behind the start line. The position of the boat at the start shall be such that the bows of the competing boats are on the starting line. Boats must be stationary.
- (f) The Referee furthest from the Starter shall say "Starter, the race is yours". The Starter will acknowledge with; "Thank-you, Referee, I have the race."
- (g) The starting command will be "READY - SET - GO" ("Go" can be a shot or strong sound signal). At the "READY" command the competitors begin their preparation to paddle. At the "SET" command the competitors place their paddle in the catch position. The competitor must not paddle forward or this action will be deemed to be a false start. The boat must not move forward at this point in the starting procedure. The starter when satisfied with the competitors positioning and attention will say "GO" (or shot or powerful sound). The competitors must only react to the start command/signal "GO" and are not permitted to anticipate it. The competitors can paddle only upon hearing the starting signal/command "GO".
- (h) The Starter will report any false starts, disqualifications, and absentees to the Chief Official
- (i) The Starter's Duties are not complete until the sterns of all boats have cleared the 25 metre marker.

4.05 FALSE STARTS

If any competitor starts paddling ahead after the word “SET” and before the word “GO” (or shot or powerful sound), he/she has made a false start and will be disqualified.

Any competitor, attempting to gain an unfair advantage at the start, shall be disqualified by the Starter. If a false start has occurred in a 500m or 1000m race the starter will stop the race. The offending crew will be disqualified and the race will be re-started with the remaining crews. For 200m races rule 4.02(e) will apply.

Failure to comply with the Starter's instructions could result in further disciplinary action, including disqualification for the remainder of the competition.

4.06 RACE RECALL

If the Starter is not satisfied with the line-up he/she will call “Stop” and hand the race over to the Referees for repositioning.

The Referee(s) and/or Starter may interrupt the start procedure or recall a race after it has started in the event that the alignment and/or spacing of a competitor's canoe jeopardized a fair start.

The Referee(s) may interrupt the start procedure by raising a red flag and announcing to the Starter: “Starter, I have the race”. The Starter will acknowledge same by announcing: “The Referee has the race”. When the Referee(s) is satisfied with the alignment of canoes, he will raise a white flag and say, Starter, the race is yours.” The Starter will acknowledge with “Thank-you, Referee, I have the race” and will recommence the countdown with “1 minute to start”.

The Referee(s) will recall a race after it has started by a short powerful sound if, in either situation, the alignment and/or spacing of a competitor's canoe jeopardized a fair start. A race will be deemed to be a false start if a red flag is up.

4.07 PADDLE BREAKAGE

If a competitor breaks a paddle in any race, other than a war canoe race, within 25 metres of the start line, and if the Starter and/or Referee decides it is not intentional, then the race shall be stopped by the Starter and/or

Referee and re-started after a replacement paddle has been obtained. Paddle breakage must occur prior to the stern of the boat clearing the 25 metre line.

4.08 POSITIONING OF CREWS AND THEIR WATER

- (a) The lanes must be marked from No.1 to No.9. The numbering goes from the left to the right on the right hand side of the competitor with the competitor facing down the course.
- (b) The water of a boat is the lane to the left of the crew's numbered marker buoy.
- (c) Canoes shall be started by their bows, and their position shall be to the left of their numbered course marker, and they shall have completed their course when the bows reach the finish line between the marginal buoys with all crew members in the boat.
- (d) Each canoe shall keep to its own water throughout the race.

4.09 ASSISTANCE

- (a) It is prohibited to receive external assistance during a race.
- (b) No crew may be accompanied along and adjacent to the racecourse by other boats while the race is in progress.
- (c) Any infraction will result in the disqualification of the crews involved.

4.10 COMPETITOR'S UNIFORMS

All competitors competing in any and all races must be uniformly dressed in the approved colours and design of their club. Failure to do so will result in the application of a penalty fee of \$75.00 per offending competitor to the Club.

4.11 ENTRIES

- (a) In each case two or more entries shall be required to ensure a race and should withdrawals, after the entries are closed, reduce the number to one canoe, the crew thereof must report to the Referees and Starter at the scheduled time of the race, and complete the course, to be entitled to the prize and points for first place finish, unless excused by the Chief Official.

- (b) No one shall be allowed to be entered twice for the same race.
- (c) (i) No competitor shall be allowed to enter or compete in more than eight (8) events including a 6,000 metre event, at a regatta sanctioned by the Sprint Racing Council. Any competitor entered in more than eight (8) events is ineligible to compete in any and all races after the eighth event for which he or she has had an entry submitted. Where more than the allowed eight (8) events have been raced, the crew and its finish place for those additional events beyond the eight shall be disqualified, and the competition results adjusted accordingly.
- (ii) The war canoe event shall not be counted as one of the races contributing to the maximum number permitted for war canoe captains.
- (d) For the National Championships, Clubs must inform the CKC Director of Development no later than one week after the posting of the Draw for Lanes, from which events the athlete will withdraw if they are entered in more than 8 events due to receiving Random entries
- (e) No registrant of a Club shall be allowed to be substituted for another, unless approved by the Competition Committee, and the crew that races a Heat shall be the crew that races the Final unless otherwise approved by the Competition Committee. No registrant of a Club shall be allowed to paddle with more than one crew for the same prize.

4.12 PARTICIPANT BEHAVIOUR

Any competitor or Club official using abusive language, fighting, splashing an official or guilty of any misbehaviour detrimental to the spirit of fair play either on the water or at a Regatta shall be liable to:

- (a) disqualification from a particular race by an Official;
- (b) disqualification from participation in the remaining races of the particular Regatta by the Competition Committee, who may consult the Discipline Committee, or;
- (c) more severe punishment by the Sprint Racing Council at a later date.

Composition of the Discipline Committee

NOTE: In the case of the Canadian Championship Regatta the Discipline Committee shall be composed of the Sprint Racing Council Chairperson, as the Chairperson, and the Flag Officers.

IV SPECIAL RULES FOR THE CANADIAN SPRINT CANOE KAYAK CHAMPIONSHIPS

5.01 DATE OF THE CHAMPIONSHIPS

- (a) The Canadian Sprint Canoe Kayak Championships of the Sprint Racing Discipline of the Association shall be held each year on a date, and at a site, upon recommendation of the Domestic Development Committee, approved by the Members at the Annual Meeting of the Sprint Racing Discipline two (2) years preceding the event.
- (b) The site selection will be based on the following rotation, beginning in 2017: WOD, Quebec, Prairie/Pacific, EOD, Atlantic. This rotation will be subject to change if approved by the Members at the Annual Meeting of the Sprint Racing Discipline three years in advance of said event being voted upon.
- (c) Should a region decline or the site be deemed unacceptable by the Council on the recommendation of the DDC, that region forfeits their hosting opportunity within the rotation. Such case would result in the tendering of bids for that specific year, after which the rotation cycle would resume with the next region on the list.
- (d) The Division in which the Championship is to be hosted must approve of the bidding site(s). The Protocol Agreement must be signed by three parties, ie., the Host Organizing Committee, the Sprint Racing Discipline and the Division(s).

5.02 APPLICATION FOR HOSTING

All applications to host the Canadian Sprint Canoe Kayak Championships together with a signed Protocol Agreement, shall be delivered to the National Office by December 31st, three (3) years prior to the year of the Championships in question and must conform with the minimum course and facility requirements as determined by the Director of Development and ratified by the DDC of the Council; said requirements and the Protocol Agreement to be available to possible hosts upon request.

5.03 DOPING CONTROL

All competitors whose names are submitted as entries in an Olympic-class canoe or kayak boat event at the Canadian Sprint Canoe Kayak Championships are subject to doping controls. (See Section 1.07 - Doping Control)

5.04 BOAT CONTROL

- (a) The appropriate equipment for weighing and measuring of canoes and kayaks shall be provided by the local Organizing Committee for the use of the Boat Controller for the day preceding the competition and throughout the Canadian Sprint Canoe Kayak Championships. This shall include and not be restricted to a certified scale suitable for the weighing of boats, a steel metric tape measure and template or other device for the measuring of length, width and depth of a canoe or kayak.
- (b) Boats must be turned over before weighing; anything that does not remain affixed to the boat shall not be weighed with the boat. Water and the boat number must be removed before weighing.
- (c) The top four boats and one random boat as selected by the Competition Committee shall be re-controlled immediately after every final, and boats shall be randomly selected by the Competition Committee for re-control immediately after the heats.

5.05 Intentionally left blank

5.06 ENTRIES

(a) *Qualifying Process*

Each Division shall determine, by majority vote of the Member Clubs comprising the Division, the method by which it will select the entries from their Division to the Canadian Sprint Canoe Kayak Championships.

(b) Number of Entries

(i) *Divisions*

Each Division shall be entitled to a maximum of four (4) entries in each 200 metre, 500 metre and 1,000 metre event and a maximum of five (5) entries in each 6,000 metre event at the Canadian Sprint Canoe Kayak Championships. Entries in the Senior, Master and Open Events are EXCEPTIONS to this rule and shall be handled on a direct entry basis at the discretion of the Division. Notwithstanding the aforementioned,

see “U19 Singles Entry Process” below for additional information.

(ii) ***Random Entries***

Any entry(ies), from the four (4) per Division, which are not filled by the Division itself shall be put into a random draw selection process available to all other Divisions who wish for additional entry(ies) beyond the initial four (4) to which they are entitled.

Where entries for an event do not fill up three (3) complete heats, Divisions may submit additional entries beyond the initial four (4) to which they are entitled. Divisions shall rank their additional entries (i.e. 5th, 6th, 7th, etc.).

A random selection process of 5th ranked entries shall take place until the remaining heat lanes are filled. If still unfilled, the random draw will continue with 6th ranked entries, then 7th ranked entries, etc. until all heat lanes are filled.

Where the addition of a Division's 5th, 6th, etc. ranked entries cause(s) a conflict with regard to the 8 race rule, changes will be made to the Flag Officer of the Division. The Flag Officer shall present any and all changes received to the Domestic Development Committee meeting which immediately precedes the Championships.

(iii) Notwithstanding any of the foregoing, any selected random draw entry will always be a valid entry and cannot be forfeited.

(iv) **U19 Singles Entry Process**

The three (3) additional entries permitted in the U19 singles events (beyond the 4 entries per Division) will be allocated to the Divisions whose athletes achieve top three finishes at National Team Trials in junior singles events, corresponding to the discipline and distance of the race. If such a race does not exist at Trials then the Random Entries will be determined as above in 5.06 ii.

(c) Substitutions

- (i) Entries shall consist of: C15 - fourteen names (plus Captain); C4/K4 - four names; C2/K2 - two names.
- (ii) Substitutions may be offered for crews entered composing no more than one half of the entry (ie. one for C2/K2; two for C4/K4; seven for C15.)
- (iii) A medical substitution will be permitted in C15; C4/K4; C2/K2 if an athlete has been declared medically unfit to compete by a licensed medical practitioner (doctor, nurse, physiotherapist, chiropractor, nurse practitioner) or by the onsite medical staff approved by the competition committee. The substitution may occur at any time (before a heat or before a final even if the crew advanced from a heat), but cannot represent more than 50% of the crew. A participant who has been declared medically unfit as noted above shall be able to return to competition only after a medical practitioner as defined above has declared the participant medically fit to compete.
- (iv) Each Division may declare a Divisional Spare in singles events. The listing of an individual as a Spare does not constitute an entry for that individual; however, if a Spare is inserted into a crew, and competes in the Regatta, that becomes an entry for that person and counts toward the maximum number of entries permitted. Crew substitutions must be reported at least two hours prior to the race and be verified and approved by the Competition Committee.

(d) Entry Process

- (i) Entries for the Canadian Sprint Canoe Kayak Championships shall be submitted to the Director of Development of the Sprint Racing Discipline of the Association using the competition software designated by CKC.
- (ii) First and last names of all competitors together with their registration number must be shown on the entry lists when submitted to the Director of Development by the Divisions. No assumed names shall be given to the Director of Development.
- (iii) Entries for the Canadian Sprint Canoe Kayak Championships submitted by the Division to

the National Office of the Association must be verified by the Flag Officer, or other Division officer, certifying the entry is a valid one. The Division shall be fined \$100 for each and every entry proven ineligible.

- (iv) An inability of a Division to complete the forms in the appropriate fashion without numerous changes by the Domestic Development Committee will be levied a surcharge. The amount of this surcharge will be recommended by the DDC and approved by the Sprint Racing Council.

- (v) A complete list of all entries for the Canadian Sprint Canoe Kayak Championships must be in the competition software designated by CKC fourteen (14) days prior to the start of the Championships.

Divisions failing to execute a complete and verified submission of their entries within the specified deadline shall be levied a 10% surcharge on the total fees of the late entries to a maximum of \$500.

(e) Competitors

All entries in the Canadian Sprint Canoe Kayak Championships must meet the following criteria:

- (i) be in the name of a Paddling Association Member Club,
- (ii) competitors representing a Member Club must have been a registrant thereof for at least thirty (30) days preceding the Championships,
- (iii) a) competitors representing a Member Club must be Canadian citizens or a permanent resident, or
 - b) competitors from other countries who are neither Canadian citizens nor permanent residents may participate in CKC sanctioned events provided they are registered with a Member Club of the Sprint Racing Discipline of the Association and have not competed for another country in an ICF Sprint/Flatwater sanctioned competition in the 18 months preceding the Canadian Sprint Racing Championships.
- (f) The Director of Development of Canoe Kayak Canada shall not be permitted to declare any entry, nor to

report the state of the entrance list until such list shall be closed.

- (g) The Domestic Development Committee shall have power to reject any entry for just cause and shall communicate their reason for rejection to the entry's club.
- (h) All questions of eligibility or qualifications of an entry or interpretation of the rules bearing upon the question of an entry that arise once the Canadian National Sprint Racing Canoe Championships are underway shall be referred by the Competition Committee to the Domestic Development Committee and the Flag Officers acting as a single committee, and its decisions shall be final.

5.07 ENTRY FEES

- (a) A separate entry fee for the Canadian National Sprint Racing Canoe Championships shall be established for Singles, Tandems, Fours and War Canoes annually at the Annual Meeting by majority vote of the Members upon the recommendation of the Sprint Racing Council.
- (b) All Canadian National Sprint Racing Canoe Championships entry fees due from a Club must be collected by the Division and paid by the Division in full prior to the review of the entries at the Club Representatives meeting on the day preceding the Championships in default of which all entries made by the individual(s) in arrears shall be declared ineligible to compete by the Chairperson of the Sprint Racing Council.

5.08 SCRATCH PENALTY

The Director of Development will assess each Member Club, following the Canadian Sprint Canoe Kayak Championships, an amount of \$30.00 for each crew entered by them and included in the Official Draw of the Canadian Sprint Canoe Kayak Championships and which subsequently fails to report to the start line for the race entered without just cause. In the case where a crew fails to report to the start line for a race which is a Final that was preceded by heats, the amount shall be \$60.00.

5.09 OFFICIAL DRAW

- (a) The number of lanes that are to be used at the Canadian Sprint Canoe Kayak Championships shall be

nine. The lanes shall be in accordance with the CKC National Sprint Championship Technical Package

The Draw for Lanes shall be conducted using the competition software designated by CKC for this purpose. The software shall be designed to implement the competition rules of CKC-SRD.

The Draw for Lanes shall be under the direct supervision of the Director of Development and an observer, if appointed by the SRC of the DDC.

Once completed, the Draw for Lanes shall be posted on the CKC website at least nine (9) days prior to the first full day of the competition.

- (b) When more entries are received for a specific event than there are lanes for the Final, heats will be drawn. Once it has been determined how many lanes are to be used at the Canadian Sprint Canoe Kayak Championships, the following procedure will apply in advancing to the Final from the heats.

When 2 heats are required:

8 lanes for Final, First 3 in each heat and 2 next fastest
9 lanes for Final, First 3 in each heat and 3 next fastest
10 lanes for Final, First 3 in each heat and 4 next fastest

When 3 heats are required:

8 lanes for Final, First 2 in each heat and 2 next fastest
9 lanes for Final, First 2 in each heat and 3 next fastest
10 lanes for Final, First 2 in each heat and 4 next fastest

When 4 heats are required:

8 lanes for Final, first finisher in each heat and 4 next fastest
9 lanes for Final, first finisher in each heat and 5 next fastest
10 lanes for Final, first finisher in each heat and 6 next fastest

The heats shall be seeded in accordance with the following procedures:

- In the draw for lanes, no entry shall race in the same heat with the entries seeded directly before and/or after it on the official entry form, except as required to balance the heats to within a single entry.

- No more than two first place entries in a heat where four Divisions are entered.
 - No more than three first place entries in a heat when five or six Divisions are entered.
 - Division pairings done by draw in each event.
 - Divisional responsibility to rank entries into first three Senior Class entries.
 - Remainder of entries from the Division subject to draw with first three handled as per above arrangement.
 - Four Divisions entered: Draw Divisions by pairs to determine in which heats the first and third entries of the respective Divisions shall be entered. Ensure the second and fourth place entries of each Division are in opposite heats. Draw as normal for lanes.
 - Five or Six Divisions Entered: Draw Divisions by threes to determine in which heats the first and third entries for the respective Divisions shall be entered. Ensure the second and fourth place entries of each Division are in opposite heats. Draw as normal for lanes.
 - All heats in a given event will be run back-to-back.
 - When the draw for heats results in one heat having an excess of two or more entries over the other heat, the lowest seeded entry in the larger heat will be switched to the other heat. When two or more Divisions have the lowest seeded entry, a random draw will determine which of these entries will be switched to the smaller heat.
- (c) The assignment of lanes for the 200, 500 and 1000 metre races shall be randomly seeded from the centre of the course.
- (d) For the 6000 metre races, crews shall be randomly assigned lanes within their Divisional ranking. Crews shall line up from the right hand side of the course (facing up the course). For example, Divisional 'Rank 1' entries shall be placed closest to the buoy marked '0'. The assignment of lanes shall be random within the 6 Divisional 'Rank 1' entries. Likewise, the Divisional 'Rank 2' entries shall be randomly assigned lanes between the 7th and 13th boat, and so on.

- (e) Objections to any entry appearing in or missing from the Official Draw for the Canadian Sprint Canoe Kayak Championships shall be made to the Flag Officer. The Flag Officer shall present any and all objections received to the Director of Development, in writing, two days prior to the first day of the Championships.

All objections must be accompanied by a written rationale from the Flag Officer AND appropriate administrative back-up documents. The Domestic Development Committee will not consider any objections without said documentation. Appropriate administrative back-up documents shall include official Divisional CKC Qualifying Regatta results and/or official original Canadian Sprint Canoe Championship entry forms. In those cases where the decision of the Domestic Development Committee may result in the addition of a late entry, an additional administrative surcharge will be applied, the amount being equal to the original entry fee.

The Domestic Development Committee of the Sprint Racing Council shall investigate any and all objections presented and a decision shall be given relative to same prior to the holding of the Championships. The decision of the Domestic Development Committee shall be final and not subject to change or appeal.

- (f) When the number of entries in an event changes after the posting of the Draw for Lanes but before the first full day of the competition, such that the number of heats required changes or that heats are not required, the lanes for the event may be re-drawn at the discretion of the Director of Development or designate.

When withdrawals create such a change after the start of the first full day of competition, the lanes for the event may be re-drawn at the discretion of the Chief Official.

Any re-draw will be done using all of the rules for the Official Draw, with the exception of posting deadlines. An updated Draw for Lanes must be posted within 24 hours of the re-draw and at least 1 hour before the re-drawn race.

When a re-draw occurs before the start of the competition, notice must be given to all clubs entered in the event, at the Club Representatives meeting on the day preceding the Championships; when a re-draw occurs after the start of the

competition, notice must be given to the Official Spokesperson of all clubs entered in the event.

5.10 ELIGIBILITY FOR PARTICIPATION

All Member Clubs and registrants must be in good financial standing with CKC and the Sprint Racing Discipline prior to the review of entries at the Club Representatives' meeting on the day preceding the Canadian Sprint Canoe Kayak Championships in default of which all entries made by the Club in arrears shall be withdrawn by the Chairperson of the Sprint Racing Council, or in the case of an individual registrant, they shall be declared ineligible to compete.
