WORLD MARATHON CHAMPIONSHIP TEAM SELECTION CRITERIA

1. Introduction

Canoe Kayak Canada and the Marathon Canoe Racing Council are committed to ensuring that a long term strategy is in place for the selection and preparation of paddlers who will represent Canada at the World Marathon Championships each year. The approval of all nominations is the responsibility of the MCRC. MCRC will also select the Team Manager/Coach. The MCRC will continue to co-ordinate the World Team Selection and required documentation, with the High Performance Director from Canoe Kayak Canada (CKC).

The MCRC will ensure that paddlers selected for the World Marathon Championship Team will adhere to the procedures and criteria in the following document. Team members must have demonstrated an appropriate level of health, fitness and technical expertise to compete at the World Marathon Championships.

Definitions

- 1.1. Canoe Marathon - In Canoe Marathon the competitor races over a designated long distance course on water not subject to prescribed standards. The competitor must take the water as it is found and be prepared, if it is necessary, to carry his or her

canoe around an impassable obstacle, or between two waterways (ICF Rules of Competition, Jan 2013).

1.2. Minimum Marathon World Championship Performance Standard

This is a performance requirement of those paddlers being considered for a Nomination to the Marathon World Championship Team.

A Minimum Marathon World Championship Performance Standard indicates the potential to achieve a required position of finish at the Marathon World Championships. The assessment of this potential is accomplished by reviewing the performance of the paddler or crew during the season of application and may also involve the review of a training log submitted to the MCRC.

1.3. Junior – The first year a junior competitor can compete is the year in which his/her 15th birthday falls, and the last year he/she may compete as a junior is the year in which his/her 18th birthday falls (ICF Rules of Competition, Jan 2015).

1.4. Under 23 - The first year an Under 23 competitor can compete is the year in which his/her 15th birthday falls, and the last year he/she may compete as an Under 23 is the year in which his/her 23rd birthday falls (ICF Rules of Competition, Jan 2015).

1.5. A competitor can compete in a Masters event in the year he or she reaches the lower limit of the age category, i.e. in the 35-39 age group in the year of his or her 35th birthday. In K2, C2 or K4 events the age of the youngest competitor will control the category in which a crew can compete. Age group categories will

commence from age 35-39 and increase upwards in 5-year age brackets (ICF Rules of Competition, Jan 2015).

The procedures and criteria that a paddler must satisfy in order to be nominated are outlined below.

2. Overview

The World Marathon Championships is a lap format race with the start, finish, and portage in the same area. The ICF recommended number of laps is 8 for senior men; 7 for senior women, U23 men and canoe senior men; 6 for canoe senior women, U23 women, canoe U23 men, and junior kayak men; and, 5 laps for kayak and canoe junior women, and canoe junior men. The exact number of laps and the number of portages may vary if required because of specific circumstance at the event. The recommended distance should be such that the winner of each class shall record a time of approximately two hours fifteen minutes for seniors. The junior distance will be controlled by the number of laps described above (ICF Rules of Competition, Jan 2015).
