**Section 2 - Hazards Identification**

**GHS HAZARDS AND PRECAUTIONS**

**SIGNAL WORD: WARNING!**

*Flammable liquid and Vapor. Contains Combustible Petroleum Distillates. Harmful or Fatal if swallowed. Keep away from heat, sparks, and open flame. Avoid prolonged breathing of vapor and use only in adequate ventilation. Repeated and prolonged overexposure to solvent vapor may cause brain and nervous system damage, respiratory tract irritation, dizziness, or loss of consciousness. May cause skin and eye irritation.*

**Prevention**

Do not handle until all safety precautions have been read and understood. Do not breathe dust, fume, gas, mist, vapors and/or spray. Keep away from heat, sparks, open flames and/or hot surfaces. - No smoking. Wear protective gloves, clothing, and eye/face protection. Keep out of reach of children.

**Response**

IF exposed or if you feel unwell: Call a POISON CENTER or doctor/physician.

**Storage/Disposal**

Store in a closed container. Store in a well-ventilated place. Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

---

- **Physical Form**: Liquid
- **Color**: Black
- **Odor**: Mild Hydrocarbon.
- **Flash Point**: 105°F (40.6°C)
- **OSHA(HCS2012)** Flammable Liquids - Category 3, Skin Corrosion/Irritation - Category 3, Serious Eye Damage, Eye Irritation - Category 2, Carcinogenicity - Category 1A
- **WHMIS** Class B - Flammable and Combustible Materials - Division 3, Class D - Poisonous and Infectious Materials - Division 2 - Subdivision A
R65, R36/37/38, R45
GHS
- Flammable Liquids - Category 3, Skin Corrosion/Irritation - Category 3, Serious Eye Damage, Eye Irritation - Category 2, Carcinogenicity - Category 1A
Route Of Entry
- Inhalation, Skin, Eye, Ingestion/Oral

Potential Health Effects

Inhalation
Acute (Immediate) - May cause irritation. Excessive breathing of high vapor concentration can cause possible unconsciousness and even asphyxiation.
Chronic (Delayed) - Refer to other information found in Section 11-Toxicology.

Skin
Acute (Immediate) - May cause irritation.
Chronic (Delayed) - Repeated and prolonged exposure may be harmful. Repeated and prolonged exposure may cause dermatitis.

Eye
Acute (Immediate) - May cause irritation. May cause burning and redness or swelling of the eyes.
Chronic (Delayed) - Repeated and prolonged exposure may cause irritation.

Ingestion
Acute (Immediate) - May be harmful or fatal if swallowed.
Chronic (Delayed) - Repeated and prolonged exposure may be harmful.

Carcinogenic Effects - This product or one of its ingredients present at 0.1% or more is listed as a carcinogen by NTP, IARC or OSHA. See Section 11 - Toxicological Information for more details.

This product is an encapsulated mixture which reduces the likelihood of exposure to hazardous particulates. Airborne exposures to hazardous dusts or mists may be generated by spraying, sanding or grinding.

### Section 4 - First Aid Measures

**Inhalation**
- IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. Call a physician or poison control center.

**Skin**
- Rinse skin immediately with plenty of water for 15-20 minutes. Remove contaminated clothing and shoes. If skin irritation occurs: Get medical advice/attention. Wash clothing before reuse.

**Eye**
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

**Ingestion**
- If swallowed, do not induce vomiting; seek medical advice immediately and show this container or label. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

### Section 5 - Fire Fighting Measures

**Extinguishing Media**
- LARGE FIRE: Water spray, fog or regular foam.
- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

**Unsuitable Extinguishing Media**
- Do not use direct stream of water.

**Firefighting Procedures**
- Fight advanced or massive fires from safe distance or protected location. Avoid water in a straight hose stream as the stream will cause splatter and spread fire. If product is heated above its flash point it will produce vapors sufficient to support combustion. Vapors are heavier than air and may travel along the ground and can be ignited by heat, pilot lights, other flames and ignition sources at locations near the point of release.

**Unusual Fire and Explosion Hazards**
- Combustible liquid.
- Containers may explode when heated.
- May release irritating or toxic gases, fumes, or vapors.

**Hazardous Combustion Products**
- Carbon monoxide, carbon dioxide, hydrocarbons.

**Protection of Firefighters**
- Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

**Flash Point**
- 105 F(40.5°C) CC (Closed Cup)

**Explosion Limits**
- **Upper** - 6 %
- **Lower** - .9 %
- **Autoignition Temperature** - 450°F(232°C)
Section 6 - Accidental Release Measures

Personal Precautions - Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation to remove vapors, fumes, dust etc. Stay upwind.

Emergency Procedures - ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area) isolate the area and contain the spilled material. Persons not wearing the appropriate PPE should be removed from the area until the spill is cleaned up. Ventilate closed spaces before entering.

Environmental Precautions - Prevent entry into waterways, sewers, basements or confined areas. Prevent spreading of vapors through sewers, ventilation systems and confined areas.

Containment/Clean-up Measures - Contain and recover liquid when possible. Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in suitable container. Do not use water to flush spill area. Use appropriate Personal Protective Equipment (PPE).

Prohibited Materials - Avoid contact with strong oxidizing agents or bases.

Section 7 - Handling and Storage

Handling - KEEP OUT OF THE REACH OF CHILDREN! Keep away from heat, sparks, and flame – No Smoking. Keep containers tightly closed when not in use. Do not use in areas without adequate ventilation.

Special Packaging Materials - Not Applicable.

Incompatible Materials or Ignition Sources - Avoid contact with strong oxidizing agents and acids.

Section 8 - Exposure Controls/Personal Protection

Personal Protective Equipment Pictograms -

Respiratory - If listed exposure limits are expected to be exceeded, use approved respiratory protection suitable for the hazard. In case of insufficient ventilation, wear suitable respiratory equipment.

Eye/Face - Wear ANSI approved safety glasses with side shields or safety goggles.

Hands - Wear chemical protective gloves made of Nitrile or Neoprene.

Skin/Body - Wear clothing that covers the skin to prevent skin exposure.

General Industrial Hygiene Considerations - Avoid contact with skin and eyes. Avoid breathing vapors. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

Engineering Measures/Controls - Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. Use precaution to protect building intake from fumes and vapors created outdoors.

Section 10 - Stability and Reactivity

Stability - Stable under normal temperatures and pressures.
Hazardous Polymerization - Hazardous polymerization not indicated.
Conditions to Avoid - Avoid contact with strong oxidizing agents and flame.
Incompatible Materials - Strong oxidizers and acids.
Hazardous Decomposition Products - Carbon monoxide, carbon dioxide and hydrocarbons.

Other Component Information - IARC has concluded that the following chemicals in this product are carcinogenic to humans (Group 1): silica, quartz. ACGIH has designated the following chemicals in this product as suspected human carcinogens (A2): silica, quartz. NTP has listed
the following chemicals in this product as known human carcinogens: silica, quartz. Risk of cancer depends on duration and level of exposure to this product as a dust or aerosol mist.

Other Information - This product contains petroleum asphalt. Petroleum asphalt is not listed as a carcinogen by OSHA or NTP. The National Institute of Occupational Safety and Health (NIOSH), has concluded that at higher temperatures roofing asphalt fumes are a potential occupational carcinogen. If this product is heated or comes in contact with heated material, avoid breathing fumes. This product may contain small amounts of polycyclic aromatic hydrocarbons (PAH's) which are recognized carcinogens in humans and experimental animals. Mouse skin painting studies of roofing asphalt vapor concentrate have shown evidence of tumor formation associated with localized skin irritation in recent studies. Inhalation studies of high airborne concentrations of asphalt/bitumen fumes in rats and mice produced bronchitis, pneumonitis, and lung changes such as fibrosis and cell damage.

Section 12 - Ecological Information
Ecological Fate - No data available.
Persistence/Degradability - No data available.
Bioaccumulation Potential - No data available.
Mobility in Soil - No data available.

Section 13 - Disposal Considerations
Product - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transportation Information
DOT - United States - Department of Transportation
Shipping Name: Not restricted if shipped in containers <450L (119 gallons), Restricted if shipped in containers > 450 L (119 gallons)
ID Number: NA1993
Hazard Class: 3
Packing Group: III

TDG Transportation Other Information - 1.33 Class 3, Flammable Liquids: Not Restricted under General Exemption for small container packaging.

TDG - Canada - Transport of Dangerous Goods
Shipping Name: Tars liquid
ID Number: UN 1999
Hazard Class: 3
Labeling Class: 3
Packing Group: III

IMO/IMDG Transportation Other Information - IMDG Code 2.3.2.5 - exempted from marking, labeling & testing of packages.

IMO/IMDG –International Maritime Transport
Shipping Name: Tars liquid
ID Number: UN1999
Hazard Class: 3
Labeling Class: 3
Packing Group: III
## Section 15 - Regulatory Information

### SARA Hazard Classifications
- Acute, Chronic

### Risk & Safety Phrases
- California PROP 65: Asphalt and Asphalt Fumes may contain detectable amounts of chemicals known to the State of California to cause cancer or reproductive harm.
