**Silver Dollar® Super-Bright Premium Aluminum Roof Coating**

**DESCRIPTION:** Silver Dollar® Super-Bright Premium Aluminum Roof Coating is a premium quality, silver reflective coating formulated to provide the brightest and longest lasting finish. The high content of aluminum in this product enables it to form a brilliant silver shield to reflect the sun’s destructive rays. Cooling costs can be significantly reduced while the underlying roofing materials are protected and preserved. This product has great waterproofing qualities which make it an ideal choice for recoating worn roofs. It also serves as a great rust inhibitor and will aid in the prevention of corrosion on metal surfaces.

**PREPARATION:** All surfaces should be dry, clean, smooth, and in good repair. Surface temperatures should be a minimum of 65°F and rising, not to exceed 110°F. Repair all leaks and problem areas with Leak Stopper Roof Patch and Glass Fabric. (See back labels of reinforcement fabrics for specific repair instructions). Priming is recommended on rusty or severely worn roof surfaces. When applying this product to a previously coated asphalt surface, it is suggested that the surface weather a minimum of one full summer to prevent bleed-through and alligatingating.

**FOR BEST RESULTS:** DO NOT THIN. STIR CONTENTS WELL BEFORE AND DURING USE AS REQUIRED. Aluminum pigment and fibers settle out, and thorough mixing is necessary to re-disperse these components prior to use. A power drill mixer should be used to properly mix product. In cold weather, store product in heated room (65°F to 80°F) at least 24 hours prior to coating.

**APPLICATION:** For exterior use only. Mix coating and apply evenly by brush or roller to the roof. Spread in both horizontal and vertical directions, overlapping ends of strokes. Avoid excessive build-up or puddling. When brushing, avoid scraping into existing roof surface. All finish strokes should be made in the same direction. DO NOT APPLY IF RAIN IS EXPECTED WITHIN 24-36 HOURS.

**COVERAGE RATES:** 
- Built-up (roll roofing) = 1 gal. per 50 sq. ft.; smooth surface and metal roofing = 1 gal. per 75 sq. ft. Avoid foot traffic once applied. All rates approximate.

**NOTE:** This product is not recommended for use on wood, asphalt shingles, synthetic rubber membranes, singly ply or synthetic roofs. Standing water dulls aluminum, and will accelerate the aging process and shorten the life expectancy of the coating. In hot weather, application to steep slopes may result in some running of the coating until fully dry. Avoid foot traffic for longest life. When buying multiple containers, it is recommended to match the batch codes on the lids and/or blend buckets together to avoid shade variances.

**CLEAN-UP:** Clean tools and spills with Mineral Spirits or Paint Thinner.

**PRECAUTIONS:** Do not use in drinking water or food systems. Seal container when not in use. When transporting this product, ensure that lid is tight and pail secure and upright. Do not allow pail to tumble as this may cause lid to loosen and leakage to occur. Do not transport on passenger seats or inside the passenger compartment of any vehicle. Store product in the cargo area of vehicle, and secure over protective cloths to prevent damage due to accidental spills. Do not store at temperatures above 100°F. Do not reuse empty containers. Do not use on single ply or synthetic roofs. Do not use in EPDM, Hypalon or PVC surfaces. If there is any question of compatibility, test a small section first.

**WARRANTY AND DISCLAIMER:** This product is believed to be of good quality and to be in accordance with the specifications set forth herein. If the product proves to be defective, it shall be replaced at the cost of Gardner. Such replacement is and shall be the only liability of Gardner. Gardner is not liable for product failure where poor drainage and ponding water exist. Gardner shall not be responsible to the consumer or any person for labor costs of any kind or any other costs or damages associated with the product or its installation, application or reapplication or any damages resulting therefrom. This warranty is exclusive and there are no other warranties either expressed or implied, including warranties of fitness or merchantability. No other written or oral representation by any person, entity, dealer, installer or representative of Gardner shall have any force or effect. For additional warranty and disclaimer information, contact the Gardner corporate office at www.gardnerasphalt.com.
