

FORCE

Force 6 is driven by a single mantra - Innovation makes all the difference for those working in the water rescue community.

It's why we spend months at the drawing board and in the field, designing and perfecting each PFD to best serve its specific rescue function. It's why we use only the highest quality foams, top-rated UL nylon fabrics, and insanely strong hardware and attachment points.

“I want to keep inventing products that make a real difference for those working in the water rescue community”

- Jim Lavalley, Founder

Force 6 values the physical safety of both the rescuer and victim. We want to assure you that in every design we manufacture, our top priorities are your personal safety and ease of use in the field.

Our products work the way you do. We use detachable accessories so individuals and teams can outfit their PFDs to fit specific rescue needs while maintaining best-in-class safety standards. Zero compromise.

Stay safe. Save lives.

RescueOps

PROUDLY MADE IN
NORTH AMERICA

The RescueOps PFD was designed for water rescue professionals that need a high buoyancy PFD for swimming in moving aerated water, ice and flood situations.

Best-in-class, this Type V universal fit PFD fits sizes medium through 3XL. Designed with 26 pounds of flotation which makes it the most buoyant universal fit PFD on the market. This PFD has large deeply cut armholes which allow the rescuer a full range of motion.

- 26 lbs, 11.8 kg of flotation
- US Coast Guard Type V certified
- Laser-cut Hypalon MOLLE pockets designed to fit radios inside or mount them outside (with standard molle radio holder).
- Chest badge nameplate - hook and loop MOLLE patch areas on the left and right chest
- Seven adjustment straps for a custom fit
- 500 denier Cordura fabric outer shell
- Extraction handle
- Back nameplate - hook and loop
- 62 sq. inches of SOLAS reflective material on front and back
- Detachable leg loops designed to ensure a perfect fit to help prevent flush drownings (not included)
- Molle on the back - for an optional back pocket (not included)
- Extremely lightweight - 3.5 lbs
- Colors: Red, Yellow, Navy
- Size: Universal one size fits most: (Chest 32" - 56" 81cm - 142cm)

Yellow #P501

Red #P500

Navy #P502

ACCESSORIES: Extrication leash, leg loops, back pocket, and other MOLLE accessories

Best-in-class, this Type V universal fit PFD is perfect for large cache situations.

M/L 32" - 52" 80cm - 132cm

XL 43" - 62" 110cm -158cm

M/L #P300

XL #P301

Question: Does my PFD have to be US Coast Guard approved?

Answer: NO, if you are a government agency (federal, state or local)

The Coast Guard prescribes regulations applicable to the carriage of personal flotation devices (PFDs) on US commercial vessels and recreational boats. US Coast Guard regulations do not apply to government vessels or shore-side personnel.

ACCESSORIES: Extrication leash and back pocket, see accessories

Our most popular PFD for the last 20 years, used by departments throughout Canada, US, Korea, Taiwan and Australia.

Marine Fire

Specifically designed for firefighters working on LNG and oil barges, cruise ships, docks/harbors, and oil tankers. The Marine Fire accounts for the unique risks associated with fighting fires near water.

Rescue Systems Bag

A two part bag system that is zippered together. One bag is a double ended rope bag that holds 400ft/122m of 8mm rope or 250ft/76m of 10mm rope. The second bag is an equipment bag which has loops to hold up to 18 carabiners. Pulleys can be attached to carabiners. A mesh pocket in which to store prusicks, and webbing loops. The equipment bag has sewn in flaps which make it an equipment ground tarp. This bag puts your rope and equipment in one easy to carry and store package.

- Holds 400ft/122m of 8mm rope or 250ft/76m of 10mm rope.
- Hardware bag holds up to x18 carabiners, pulleys & more.
- Splits into x2 separate bags
- Built in ground tarp
- A mesh velcro pocket to store prusiks & webbing loops
- Webbing carry handle
- Built in ground tarp
- Heavy-duty corrosion resistant YKK zippers throughout
- Reflective panels for increased low-light visibility
- ID pocket for customization and easy user identification
- Heavy-duty side webbing handle
