# FARM BAR™

## UNIVERSAL SCALE

### Unmatched Accuracy and Durability

#### A Simple Solution for Animal Weighing

Farm Bar animal scales are available in three capacities and cover a variety of weighing applications. These heavy-duty, electronic load cell scales can be mounted under most cattle squeeze chutes, hog crates, feed hoppers and custom platforms.

#### All-Weather Use

The scale's all-steel construction has been proven over 30 years of field use. There are no moving parts to maintain or wear out, providing years of trouble-free service.

#### Easy-to-Read Indicator

The IQ Plus® 390 digital indicator features a large LCD display that's easy to read even in direct sunlight. Weight is displayed in pounds or kilograms at the push of a button. The indicator operates on multiple power sources, and a computer output is standard, allowing weight data to transfer to a PC or printer.

#### Quick, Accurate Weights

Farm Bars provide a solid scale base by eliminating platform movement, which could frighten livestock. In combination with the lock-on feature, the solid scale base ensures an exact reading, even with the most active of animals.

#### Factory Calibration

Calibrating and balancing at the factory eliminates installation errors and the need for an installation technician. Install the Farm Bar system, press the Zero button, and the scale is ready to weigh. The Zero button also allows compensation for debris and mud or snow buildup. Farm Bar load cells are constructed of rugged steel with precision bearing components balanced and calibrated at the factory for years of worry-free performance. In addition, each Farm Bar has built-in horizontal checking and unique flex bases to ensure accurate weights in even the roughest conditions.

#### 2,500 Scale Package for Alley Scales

- Ideal for an alleyway scale system or for small animal weighing
- Capacity of 2,500 lb (1,114 kg)
- Finest reading is 0.5 lb (0.2 kg)
- Available length: 22 in
- Bar height: 4 in
- Bar spread: 8 ft

#### 5,000 Scale Package for Manual Chutes

- Ideal for use under a manual chute
- Capacity of 5,000 lb (2,268 kg)
- Finest reading is 0.5 lb (0.2 kg)
- Available lengths: 28, 33, 36, 40, 44, 48 in
- Bar height: 4 in
- Bar spread: 8 ft

#### 10,000 Scale Package for Hydraulic Chutes

- Ideal for use under a hydraulic chute or buffalo chute
- Capacity of 10,000 lb (4,536 kg)
- Finest reading is 1.0 lb (0.5 kg)
- Available lengths: 36, 48, 60, 72 in
- Bar height: 4 in
- Bar spread: 8 ft

SellEton Scales manufactures reliable scales and wrapping solutions for industrial and commercial applications. We help businesses improve efficiency by integrating accurate, affordable measuring tools into their operations. Our mission is to deliver precision and productivity at competitive prices.
