SERUM

Hydration to the max!

During the day, the skin naturally loses a lot of moisture. This can be due to changing weather, sun exposure, or transitioning from cold to warm air. Some people naturally have drier skin, or it could be a result of cosmetics. This can make the skin feel uncomfortable and even slightly tight. But that's not all, due to moisture loss, small wrinkles can also start to appear. We want to prevent and counteract these as effectively and naturally as possible.

This wonderfully hydrating serum, with the subtle fragrance notes of the Aloe Vera plant, combats the skin's natural moisture loss. The cactus extracts also stimulate the skin's natural ability to retain moisture. This restores the overall moisture balance in the skin and prevents the formation of dry lines.

The concentration of hyaluronic acid used in the serum is much higher, and the molecules are much smaller. This allows the serum to penetrate deeper into the skin, acting as a true booster. After using the serum, follow up with Rio Cosmetics Hydra-Age Day Cream for daily maintenance and protection against external influences.

This indulgent serum is the ultimate hydration booster:

- Hydration booster
- Stimulates cell renewal
- Prevents and reduces dry lines and wrinkles
