Wonders of the Rainforest

Dreamed up in Brazil, and founded in Brighton in 1986, Rio Health has been sharing the potent powers of indigenous herbs for over 30 years.

The Amazon Rainforest stretches over a billion acres in Brazil, Venezuela, Columbia, and the Eastern Andean area of Ecuador and Peru.

It is home to more than half of the world's plant species. The competitive nature of the rainforest environment has led to rainforest plants evolving unique chemical compounds for their own survival. Infusions from selected leaves, roots and bark have been used by indigenous peoples for centuries for their health and wellbeing.

TASTE THE TROPICS

These Taste the Tropics Teas combine health benefits with exotic flavours for the perfect wake-up cup.
