

JABRA GN2000 SERIES

FOR DESK TELEPHONY

Jabra®

DATASHEET

DESIGNED TO PERFORM. BUILT TO LAST.

The Jabra GN2000 Series contact center headsets feature superb call clarity. Tested to withstand rough handling and comfortable enough to wear all day. Best of all, Jabra GN2000 Series offers far more than you would expect from an affordable headset:

- Optimized for contact center use
- Day-after-day durability due to robust design
- Wideband sound for natural sounding audio quality with Jabra GN2000 IP
- Large ear-cushions for extra comfort
- Choice of noise-canceling microphone or SoundTube boom arm

Built to last, the Jabra GN2000 series is our toughest contact center headset yet. The Jabra GN2000 Series is a straight forward, easy-to-use headset. It's available with either a special noise-canceling microphone mounted on a flex boom arm or SoundTube equipped with a standard microphone. Experience crystal clear communications as the noise canceling microphone reduces unwanted background noise – even in noisy offices.

Large ear cushions provide exceptional comfort thanks to fully gimbaled mountings. That means our earpieces automatically adjust to the shape and angle of the ear. And less manual adjustment means you can concentrate on the call and not on the headset.

The Jabra GN2000 Series ear cushions also provide better acoustical coupling, ensuring a rich incoming signal. The Jabra GN2000 IP provides full frequency response up to 6,800 Hz so you enjoy optimum call clarity. The Jabra GN2000 is the smart alternative for compatibility with telephone systems that are not prepared for wideband telephony.

What's more, this remarkable headset also features our PeakStop™ technology, which cuts off sudden loud noises above 118 dB SPL.

The Jabra GN2000 is also available with a USB connector for dedicated IP applications. Moreover, the Jabra GN2000 USB headset gives agents true stereo-quality sound. Complete with in-line sound controls, the Jabra GN2000 USB is a true plug-and-play product that is Microsoft Windows® compliant.
