CLS Series™

Lightweight, easy to use and affordable.

Improving patient care and reducing costs are leading reasons why dental and medical clinics, hospitals, and long term care facilities use Motorola business two-way radios. These radios provide clear and instant communication enabling healthcare professionals to work more efficiently and effectively.

Instant communication in Healthcare means:

- Improved efficiency and productivity
- Quick coordination and response to emergencies
- Enhanced safety and security
- Reduced operational costs
- Improved patient care
- Immediate communication
- Improved response time
- Increased overall service and satisfaction

- NO CONTRACTS
- NO MONTHLY FEES
- NO PER-CALL CHARGES
- NO INFRASTRUCTURE REQUIRED

Healthcare Challenges	Two-way Radio Solutions
Rising costs, tighter budgets.	CLS Series are affordable and easy to use, with no per-call charges and no monthly fees.
Ensuring safety and security.	Doctors, nurses, assistants and office staff can take immediate action when disturbances or emergencies occur.
Increased patient load.	CLS Series improves efficiency allowing more time with patients - improving the patient experience and patient satisfaction.
Improving staff effectiveness.	Reducing time spent locating doctors, nurses and assistants improves productivity and reduces costs.

Lightweight Durability

Easy for employees to carry and hold all day, yet built to withstand everyday use.

Business Exclusive Frequencies

Motorola business two-way radios operate on exclusive frequencies for clear signal without interference.

Long Lasting Battery Life

Rechargeable Lithium ion battery provides up to 12 hours of battery life.

Convenient Charging

Multi-unit and single drop-in chargers keep radios charged, ready and centrally located. An optional AAA alkaline battery tray keeps you ready for emergencies.

Accessories

Motorola offers a full complement of accessories for customizing radios to suit user needs.

A Motorola business two-way radio can pay for itself in less than 2 months.

If each worker saves 5 minutes per hour, watch your savings multiply...

Hourly rate including benefits	Each radio pays for itself in...	Annual savings for 10 workers
\$8 per hour	35 days	\$14,000
\$12 per hour	24 days	\$21,000

Based on calculations using MSRP of \$189 for a two-way radio and on the hypothetical hourly wages of an employee or worker.
