Hardware Packages

For: Center Armless Section

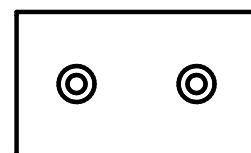

2 - Aluminum Plates

4 - 1 $\frac{1}{4}$ " Screws

For: Corner Section

8 - Aluminum Plates

16 - 1 $\frac{1}{4}$ " Screws

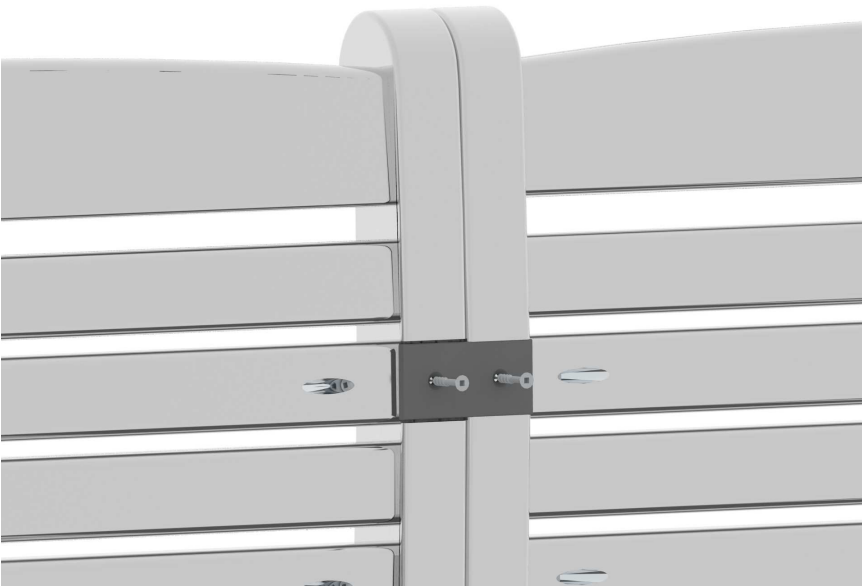

Step 1

Place your sections in the correct position then push them together.

Note:

The pieces in your sectional may not be same as the picture shown.

Step 2

Connect your sections by placing the aluminum plates in the "cutouts" in both the seat and back areas then fasten them using the 1 1/4" screws.

Be sure to tightly push the pieces together before driving in the screws.

Step 3

Repeat step two (2) until all your pieces are connected.

Each side connecting to another piece should be attached with 4 - aluminum plates as show in the example on the left.
