Anti-Bacterial Foaming Soap

Our Anti-Bacterial Foaming Soap has been formulated specifically for the food preparation industry to thoroughly clean, sanitise and disinfect hands.

The EN1499 formulation is effective against infectious organisms and viruses including MRSA, H1N1 and Norovirus. Chlorhexidine Digluconate is used to give anti-microbial action, which enables the formulation to meet international specifications on skin disinfecting. It easily removes ingrained dirt, grease and oil from the skin.

Benefits

- ✓ **Free from:** Triclosan, Formaldehyde, fragrance and dye
- ✓ Chlorhexidine Digluconate meets international specifications
- ✓ Kills 99.9% of germ and bacteria. Contains a broad spectrum of activity against Gram-positive and Gram-negative bacteria, yeast and fungi
- ✓ Kitchen safe - doesn't taint food
- ✓ No residual solvent smell on hands after washing
- ✓ Contains moisturisers to leave skin feeling soft and supple
- ✓ Can be used daily because of its mildness
- ✓ Lasting action between hand washes
- ✓ Works with hot or cold water in hard or soft areas
- ✓ Reduced use of hazardous substances
- ✓ Phosphate and phosphonate free
- ✓ Readily biodegradable
- ✓ Not tested on animals

Application and Directions

Wet hands thoroughly. Apply a small amount onto hands. Massage into the palm then over front and back of both hands taking care to work well into webs and cuticle area. Ensure both hands are fully treated. Rinse with clean water and towel dry. Where water is not readily available rub well into hands and dry using a towel or tissue. Repeat the process on a regular basis.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage users to reduce waste going to land fill by recycling empty bottles.

Areas of Usage

Use to sanitise prior to contact with patients, food, etc:

- Hands
- Forearms
