DELPHIS*
*eco PROFESSIONAL CLEANING

Application and Directions

Manual destaining: Add 10g per litre of warm water. Put tea and coffee cups into a sink or bowl of warm water, soak for 10-15 minutes, rinse thoroughly or pass through dishwasher. Increase contact time for heavy staining.

Machine destaining: For specific pieces of equipment such as a juice machine or coffee machine refer to manufacturers guidelines and task card.

For best results use on a regular basis.

Proper dosage saves cost and minimises environmental impact:
Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty containers.

Main Use

COSHH

DANGER

Health and Safety

Use only as directed. Do not mix different cleaners. Seek medical attention if in discomfort or if any symptoms persist.

Eye Contact: Avoid contact with eyes, if product gets into eyes, rinse with water.

Skin Contact: Avoid contact with skin, if product gets onto skin wash with water and remove any contaminated clothing.

Ingestion: Do not drink, if swallowed drinking water may be beneficial, do not induce vomiting.

Inhalation: Not applicable.

don't forget PPE...

Always wear the correct protective clothing if required. For best results we recommend using the correct dosing and colour coded microfibre cloths - please ask your manager for details.

how to dispose...

Dirty, used washing solution should be disposed of via drains that lead only to foul sewers. Do not allow detergent solutions to contaminate surface water drains. In the event that concentrated product should need to be disposed of, run small amounts to foul waste, diluting with plenty of water. For larger quantities, seek advice on disposal from the local authorities. Delphis Eco products are packed in fully recyclable containers. Empty containers should be rinsed thoroughly, the washings being run to foul waste. The containers may then be sent for recycling. Dispose of all waste in a responsible manner. Be aware of the environment.
