

our info sheet for...

Metal Polish

Our Metal Polish uses fine abrasives to clean and restore a bright sparkle to tarnished metal and paintwork. It's safe to use on all metals and automotive paint.

Benefits

- ✓ **Free from:** Solvents, VOC's, EDTA, NTA, fragrance and dye, APEs
- ✓ Easy to use and buffs to a shine
- ✓ No hard rubbing required
- ✓ can be applied in damp conditions
- ✓ Reduced use of hazardous substances
- ✓ Phosphate and phosphonate free
- ✓ Readily biodegradable
- ✓ Not tested on animals

Application and Directions

Use as supplied. Shake well before use. Apply a small amount to a soft clean cloth and rub in circular motions. Polish to a bright finish with a separate clean cloth. Do not use in direct sunlight or pour directly onto paintwork. Avoid using on rubber and plastic trim. Always test on a small area first.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty bottles.

Areas of Usage

Use on all types of polishable metals including chrome, brass, copper, aluminium, stainless steel and alloys.

- automotive paint, grills, headlamps, wheels and spokes
- door handles
- trophies
- candle holders
- balustrades
- jewellery

Safe Handling and Storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.
