

our mini guide to using...

multi-purpose cleaner

delphis eco

application and directions

Manual cleaning:

Apply a small amount to a damp cloth and wipe surface. For heavy cleaning spray directly onto surface, leave to stand and wipe clean. For larger surface areas such as floors, use a mop and bucket. **NB.** For food preparation and storage surfaces rinse with water after cleaning.

Machine cleaning:

Dilute up to 1:150 parts water via pressure washer or scrubber dryer machine. Adjust dilution to maximise results.

Carpet extraction:

Dilute 1:50 parts warm water (20ml per litre, max 60°C) in the solution tank. Clean carpet according to machine manufacturers recommendations. Manual carpet cleaning: Dilute 1:50 parts warm water (15ml per 750ml, max 60°C) into a spray bottle. Apply a small amount to the affected area and wipe with a clean, absorbent cloth. Always pretest carpet or fabric for colour fastness and texture change with diluted solution in a small area that does not show. Allow test area to dry before proceeding. If colours bleed or change do not proceed.

dilution guide

Tested and effective, through certain applications, at a dilution ratio of up to 1:150. Dilute through 15ml dispensing unit for general cleaning.

- General cleaning:** 1 part concentrate to up to 50 parts water.
- Light cleaning:** 1 part concentrate to up to 80 parts water.
- Heavy cleaning:** 1 part concentrate to up to 10 parts water.

main use

COSHH

health and safety

Use only as directed. Do not mix different cleaners. Seek medical attention if in discomfort or if any symptoms persist.

Eye Contact: Avoid contact with eyes, if product gets into eyes, rinse with water.

Skin Contact: Avoid contact with skin, if product gets onto skin wash with water and remove any contaminated clothing.

Ingestion: Do not drink, if swallowed drinking water may be beneficial, do not induce vomiting.

Inhalation: Avoid inhaling product, move to fresh air if in discomfort.

COSHH: Irritant concentrate only.

don't forget PPE...

Always wear the correct protective clothing if required. For best results we recommend using the correct dosing and colour coded microfibre cloths - please ask your manager for details.

how to dispose...

Dirty, used washing solution should be disposed of via drains that lead only to foul sewers. Do not allow detergent solutions to contaminate surface water drains. In the event that concentrated product should need to be disposed of, run small amounts to foul waste, diluting with plenty of water. For larger quantities, seek advice on disposal from the local authorities. Delphis Eco products are packed in fully recyclable containers. Empty containers should be rinsed thoroughly, the washings being run to foul waste. The containers may then be sent for recycling. Dispose of all waste in a responsible manner. Be aware of the environment.
