Natural Disinfectant

Our Natural Disinfectant cleans to prevent cross contamination and protect all surfaces. It's highly effective against a wide range of micro-organisms to stop the spread of harmful infection and kills 99.999% of germs and bacteria.

Ideal for the disinfection of equipment, containers, utensils, surfaces or pipe work associated with the production, transport, storage or consumption of food, feed or drink for humans and animals.

Benefits

- ✓ EN1276, EN13623, EN13697 and EN13704 approved
- ✓ Effective against Clostridium Difficile, Ecoli, Pseudomonas, etc - see page 2 for full list
- ✓ **Free from:** Chlorine bleaches, Triclosan, EDTA, NTA, APEs
- ✓ 100% natural
- ✓ Dual action - cleans and kills bacteria
- ✓ Reduced use of hazardous substances
- ✓ Phosphate and phosphonate free
- ✓ Safe in septic tanks if used as directed
- ✓ Readily biodegradable
- ✓ Not tested on animals

Application and Directions

Dilution: 1 part concentrate (30ml) to 25 parts water (700ml).

Deep cleaning or bacterial kill: Spray directly onto the surface and allow 5 minutes contact time. For food prep surfaces rinse with clean water. Allow surface to air dry. For larger surface areas such as floors, use a mop and bucket.

Clean as you go: Spray directly onto the surface, allow 30 seconds contact time and wipe clean. For food prep surfaces rinse with clean water.

Pressure washing: Use via dilution system on machine with steam if possible.

Proper dosage saves cost and minimises environmental impact: Delphis Eco encourage proper dosage and users to reduce waste going to land fill by recycling empty bottles.

Safe Handling and Storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.

Areas of Usage

Any where infection through cross contamination is a problem:

- Food prep areas and storage surfaces
- Toilets, washrooms, baby changing areas
- Hospital wards and care homes
- Veterinary facilities

Technical Data

Figures are typical values and should not be used as specifications

Appearance:	Liquid
Colour:	Colourless
Solubility in water:	Soluble
Viscosity:	Viscous
Boiling point/range:	100°C
pH:	2.0-3.0

Supplier Information

Product Name: Natural Disinfectant
Product Code: NDF050 (5ltr conc.)

Supplier: Delphis Eco, Sustainable Workspaces
25 Lavington Street, London SE1 0NZ
t: 0203 397 0096
