BEAUTY BEAT

## Daylight Savings

Summer in the city isn't easy on your skincare routine. Luckily, DC's top beauty entrepreneurs are on the case. Read on for a roundup of new products that will prep your skin for the sun. —KB

**THE PRODUCT** Alchimie Forever pigment lightening serum, \$95

**THE PERKS** Alchimie's first facial skincare product to address pigmentation problems, this new serum focuses on lightening and evening out skin tone while also visibly reducing the appearance of fine lines and wrinkles.

**WHY IT'S IMPORTANT** "Summer means sun and, unfortunately, sun means brown spots," says Ada Polla, Alchimie's CEO. "So it's particularly essential to use a treatment product during the warmer months that will help prevent those pesky age spots and even out your complexion." *Salamander Resort & Spa* ([salamanderrestort.com](http://salamanderrestort.com)); *Progressions Salon & Spa* ([progressions.com](http://progressions.com)); [alchimie-forever.com](http://alchimie-forever.com)
