Information contained in this document supersedes any previous publications or statements regarding warranty and/or service price guidelines.

*NOTE: Parts for discontinued models are in limited supply and may or may not be available at the time your watch is sent in for repair. Some discontinued models may no longer be serviceable. CAP price is determined on a case by case basis.

Full Service (where applicable) is only available on discontinued models during the first 4 years of ownership, with proof of purchase, when the first Full Service was conducted at the two year mark.

Explanatory notes:
- Warranty
  Retain your purchase receipt for proof of warranty as it is required for all warranty work. The itemized receipt must be from an authorized dealer and clearly show the date of purchase. The majority of Roots watches are guaranteed for two years against any defect caused by a fault in its manufacture. Loss or damage caused by accident, negligence, or opening, repair by unauthorized persons is excluded from this warranty, as is cosmetic deterioration of the case. Bands, crystals and the battery life is not covered under warranty. Moisture damage caused by failure to secure the crown correctly is also not covered under warranty.

- Athletic Line Watches
  Only battery changes are available for Athletic Line watches. Any service work required in beyond a battery change will result in replacing the watch.

- Base Cost / Battery Service
  This is a base fee, which is the minimum charge on any repair. This fee covers the cost of receiving, logging in, fault detection and analysis by our technicians, logging out and recording of the repair. The cost of supplying and installing a top-line battery in quartz models is included in the base fee. The cost of return shipping and insurance fee is not included.

- Watch Classification - Athletic / Core Line
  The Athletic watch line is mostly plastic cased watches with MSRP under $100. The Core watch line is mostly steel cased watches with MSRP over $100. If you have any questions about the type of watch that you own call 1-800-663-1881 or email roots@momentumwatch.com.

- CAP
  Complex repairs can become costly if numerous parts need to be replaced. We limit the cost of repairs on current models, so that any repair will not exceed the "CAP" price listed. The CAP price refers to the cost of repairing the watch, and does not include the cost of watch bands, special sapphire crystals, or shipping and insurance. CAP price may vary depending on the specifications of the watch.

PRICES DO NOT INCLUDE APPLICABLE TAXES.
PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.
