JOURNEY SHY1

BY SIGNE HYTTE

2018

After pursuing various configurations joining a sphere and a rectangle, this lesson in geometry led designer Signe Hytte to a beautifully balanced lamp embracing both. The Journey lamp. Cradled in the curve of its upright rectangular base, the sphere, when lit, conjures up the feeling of a full moon. And with the dimmer function, it's a lamp that lets you adjust the atmosphere to suit your mood.

In terms of lighting, the dim to warm feature reflects science-based discoveries about how the right light contributes to our health and sense of well-being. Already incorporated into the Journey lamp, it's a state-of-the-art dimmer function in line with the findings from this year's Nobel Prize winners. Confirm our inner biological clock and the importance of colder, white light for an energy boost and warm light for creating a sense of calm.

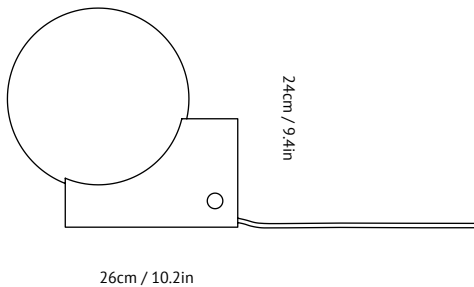

The Journey lamp works as a table lamp and a wall lamp. The opal glass shade exudes a soft, ambient light seamlessly controlled via the dimmer knob on the base. Choose from a mirrored chrome base and chrome dimmer for a monochromatic look. A matt black base with a brass dimmer. Or a clay-toned base with a brass dimmer. Either way, the merging of round and rectangular is a true tribute to Euclid, considered the Father of Geometry.

Product category	Table and wall lamp
Production process	The lamp shade is made from mouth blown opal glass and the base is made from laser cut and precision welded steel.
Environment	Indoor
Material	Mouth-blown satinized opal glass and steel
Dimensions (cm/in)	L: 26cm/10.2in, W: 18cm/7in, H: 24cm/9.4in
Weight (kg)	1,6 Kg
Colours	Mirror, Black, Clay
Voltage (V)	230-240V 50HZ.
Light source performance & quality	Light output: 480 lumen Lument/watt: 100 lumen/watt CRI: +85 Color temperature (Kelvin): Dim-to-warm technology - 2200-2800K
Light source & Energy efficiency class	4,8 Watt LED The luminaire is compatible with bulbs of the energy classes: A++ - A. The built-in LEDs cannot be changed in this luminaire.
Dimmability	The light intensity can be controlled by the dimmer knob on the base of the lamp.
Approximate LED life-time	50.000 hours
Certifications	CE, IP20, Class II
Cord length (cm/in)	200cm/78.7in
Cleaning instructions	Clean with soft dry cloth. Always switch off the electricity supply before cleaning.
Package dimensions (cm/in)	L: 30.5cm/12.00in, W: 25.5cm/10.03in, H: 30cm/12.00in

26cm / 10.2in

18cm / 7in
