

Head Tester

Overview

The Entrepix Head Tester offers a newer, faster, and more reliable way to test carriers. Designed with years of experience in carrier testing and troubleshooting, the Entrepix Head Tester is the all-in-one solution to keep your heads in top shape.

Highlights

- Accommodates 150mm, 200mm, and 300mm carriers
- Compatible with Titan, Profiler, and Contour configurations
- Simulates wafer de-chuck, as well as wafer-present/wafer-absent function
- Displays real-time pressure and vacuum data throughout the test, allowing for "cross-talk" observation and early test abortion
- User definable testing parameters
- Testing data is saved onboard with the option to export to a flash drive
- Manual Mode gives user full control of each zone to perform in-depth troubleshooting
