

Pad Conditioner Head Rebuild/Exchange Service

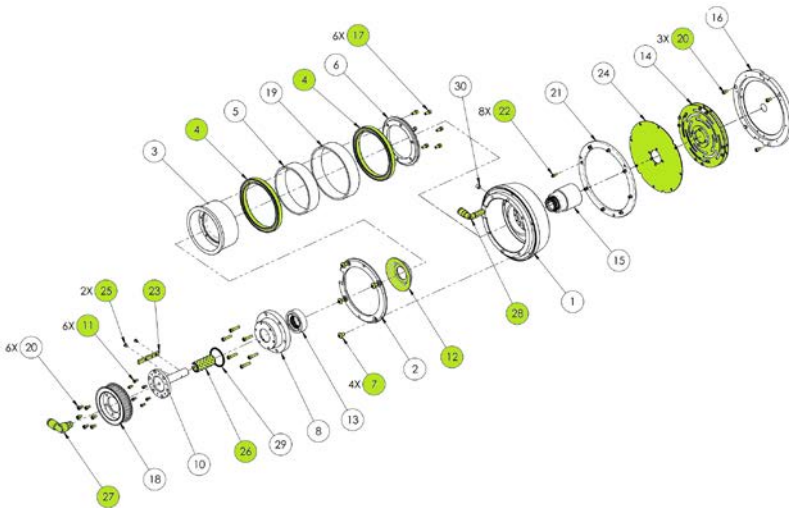

Overview

The proper and reliable operation of the pad conditioner head assembly is critical to the CMP process and requires frequent preventative maintenance.

Rebuild Service

- Customer sends Entrepix their complete core PC head assembly.
- Entrepix inspects the core and documents any assembly concerns.
- Entrepix coats the external housing with Teflon.
- Entrepix refurbishes the customers core by replacing all of the parts shown in green.
- Entrepix tests the assembly for pressure, vacuum and rotation.

Exchange Service

This service is now available on our Entrepix expedited exchange program. If service is purchased as an exchange the customer sends Entrepix their core PC head assembly and we immediately send a rebuilt, Teflon coated and tested PC head in exchange.
