

# Remote UPA

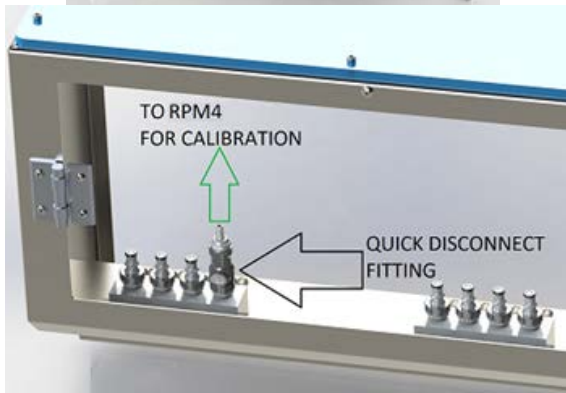

## Overview

Entrepix low cost UPA upgrade. Titan or Profiler UPA components and cables are relocated outside the process area for temperature stability control. Quick connect fittings allow for fast and accurate calibrations without exposure to the process area.

## Highlights

- New externally-located UPA cabinet allows access to components without exposing process area
- Convenient externally-located quick connect fittings for easy calibration
- Elimination of e-chain assembly with Waterfall-style UPA cable management
- Compatible with original OEM Titan and Profiler UPA components
- Easy installation that can be performed at customer site
