

# Wet Robot Arm Driver Upgrade

## Overview

The Robot Arm Driver Upgrade offers a complete solution to replace the obsolete drivers currently found on the Mirra platform. The upgrade will consist of updated driver units, driver mounting bracket assembly and DC power supply. This solution will also adapt to the new Entrepix Head Sweep Motor/Driver solution.

## Highlights

- Drives come preconfigured to work with the existing motor solution
- Wiring will be compatible with minor changes
- Driver mounting bracket installs similar to the older version
- Driver bracket will also be compatible with the Entrepix Head Sweep Driver solution
- 48V DC Power supply included – Din rail mounted package

## Additional Points

- Driver bracket is compatible with the Entrepix Head Sweep Driver Solution
- (See 340-120-10685 or 340-120-11511)
