

► **Code Number**

1001500

► **Specifications**

- Cartridge Kit - Engineered to last for at least 7000 uses
- Cartridge is made from recyclable ABS
- Sealant Liquid - 100% biodegradable
- Cartridge Installation/Removal Tool (Key)
- Protective Glove
- Disposal Bag

► **Features**

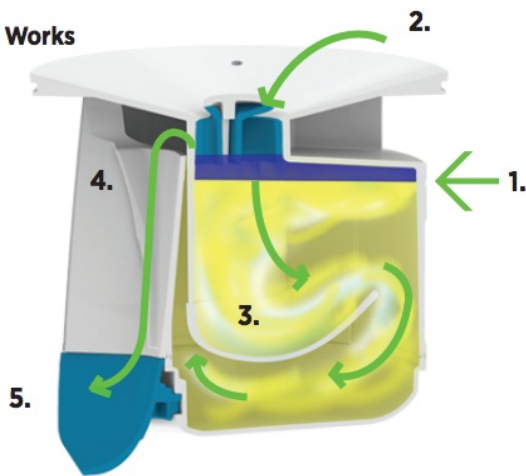

- Uses no water
- Mechanical-free design
- Patented, sealing locking cartridge
- Biodegradable Cartridge Sealant Liquid eliminates odors

► **Benefits**

- Improved hygiene and safety
- Reduced water and sewer costs
- Water supply piping not required
- Odor-free
- Easy installation and replacement

► **OPERATION**

How It Works

01. The cartridge begins full of liquid with a layer of proprietary biodegradable sealant that floats on the surface.
02. Waste enters the cartridge and passes through this sealant which isolates foul odors from the restroom.
03. Flowing waste is slowed by internal baffles that help retain sealant and allow the uric sediment to settle.
04. Waste flows past an internal trap and exits the cartridge leaving some of the uric sediment behind.
05. The urine accelerates as it is funneled down to a flexible spout where it is redirected out of the housing and into the drain pipe.
