Who should attend?

Are you a teacher, wanting to bring more richness and integration into your classroom, making sure every child is included? This course links directly to new curriculum requirements including principles and values centered training, social and multi-cultural integration components, mathematical skills are enhanced, social interaction and personal leadership skills are greatly increased. If you are looking for exciting and passionate new ways to raise your classrooms potential, then this popular course is definitely for you.

You will learn important facilitation skills that combine African, Cuban and Brazilian based World Circle Drumming concepts; World percussion techniques, culturally specific ensemble performance formats, and leadership skills that connect directly to the new Arts curriculum.

CALL NOW TO RESERVE YOUR SPOT!

This training is jam packed with insights and activities to serve the growing demands of Drum Circle Facilitation in the classroom. You will engage in inspirational activities that create fun, innovative and thoughtful games of interaction, as well as applications for inclusion of metaphors to quickly add value to facilitation skills for any community.

Bring to life the lessons and the power of Human Rhythmic Energy through further enhancing your skills as a drum circle facilitator under the guidance of two masterful teachers. This valuable course provides you with an encyclopedia of techniques to enhance your ability for positively influencing others. Teachers will learn to empower themselves in the challenges of “New Curriculum” and “Character” enhancing requirements. This course easily guides participants through basic to advanced music curriculum requirements.

See you there!
